Report of the National Museum United States National Museum, 1889 The Plains of the Great West and Their Inhabitants; Being a Description of the Plains, Game, Indians, and C. ., of the Great North American Desert Richard Irving Dodge, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1876 edition Excerpt CHAPTER XLT7 CONCLUSION The plains Indian while not so degraded as many other tribes and people of this and the older continent is as thoroughly savage as any His religion inculcates neither obligation nor duty either to God or man His education teaches no morality His social life is scarcely a remove from that of the beasts of the field His idea of right is the execution of his own will of wrong the enforcement of another will in opposition to his But however savage he may be it is worth while to reflect that the ancestors of the most enlightened nations were at some time in the world's history as savage as he is now Our growth has been the slow development of ages upon ages It is hardly fair to expect him even with superior advantages to change his nature in two or three generations He has moreover never had a fair chance His advantages knowledge of and contact with civilisation are rather apparent than real The fur trade of North America has founded and built up some of the most colossal fortunes in England France and America The larger portion of this trade comes from the Indian Its profits even with the legitimate traffic were and still are enormous and when advantage is taken of his passion for finery and fire water these already enormous profits are so far increased that sharp and unscrupulous competition is not to be wondered at The nature of the direct trade the small capital required and its position outside of the jurisdiction of the law attract to it the very worst class of whites who communicate to the Indian all the most glaring vices and none of the good qualities of civilisation That the Indian at this day is the cruel inhuman savage that he is is partially the fault of the The Metropolitan Frontier and American Politics Daniel Elazar, 2020-03-10 American civilization has been shaped by four decisive forces the frontier migration sectionalism and federalism The frontier has offered abundance to those who would could take advantage of its opportunities stimulated technological innovation and been the source of continuous change in social structure and economic organization migration has been responsible for relocating cultures from the Old world to the New various sections of geographic territories have adjusted to the overall American culture without losing their individual distinctiveness and federalism has shaped the United States political and social organization The Metropolitan Frontier and American Politics was begun in the late 1950s under the auspices of the University of Illinois Institute of Government and Public Affairs as a study of the eight lesser metropolitan areas in Illinois What started out as a design for community maps of each area with the intent to outline their particular political systems led to a major study of metropolitan cities of the prairie the heartland area between the Great Lakes and the Continental Divide with an examination of the processes that have shaped American politics The distinctive features of the geographic areas that Elazar discovered can best be understood as reflections of the differences in cultural backgrounds of their respective settlers Proper understanding of these communities

therefore requires an examination of their place in the federal system the impact of frontier and section upon them and a study of the cultures that inform them as civil communities The volume is consequently divided into three parts Cities Frontiers and Sections Streams of Migration and Political Culture and Cities States and Nation each of which explores Elazar s concerns in discovering the interrelationship between the cities of the frontier and American politics A prequel to The Closing of the Metropolitan Frontier The Metropolitan Frontier and American Politics will be of great interest to students of politics American history and ethnography *American Anthropologist* ,1899 Eclectic Magazine John Holmes Agnew,Walter Hilliard Bidwell, Henry T.
