Rudolf Bultmann Interpreting Faith For:

Rudolf Bultmann Rudolf Bultmann, 1991 *Rudolf Bultmann* Rudolf Bultmann, 1991 **Rudolf Bultmann** Rudolf Karl Bultmann, Bultmann's pioneering study of the New Testament initiated a new era in biblical studies in the Twentieth Century. Together with Karl Barth, Bultmann broke with liberal theology but his often misunderstood program of demythologization took him in a radically different direction from Barth. In many respects Bultmann set the agenda for biblical theology in the decades following World War II. This volume concentrates on the key texts and ideas in Bultmann's thought. It presents the essential Bultmann for students and the general reader. Roger Johnson's introductory essay and notes on the selected texts set Bultmann in his historical context, chart the development of his thought and indicate the significance of his theology in the development of Christian theology as a whole. Substantial selections from Bultmann's work illustrate key themes: God as Wholly Other, Jesus and the Eschatological Kingdom, Existentialist interpretation, Kerygma, Faith and Modernity in conflict, Demythologizing: controversial slogan and theological focus.

Dictionary of Biblical Criticism and Interpretation Stanley E. Porter, 2007-01-24. First Published in 2007. Compiling the results from contemporary and exciting areas of research into one single important volume, this book stands ahead of its field in providing a comprehensive one-stop Handbook reference of biblical interpretation. Examining a wide range of articles on many of the recognized interpreters including Augustine, Luther and Calvin up to the modern figures of Martin Hengel and T. W. Manson, Porter expertly combines the study of biblical interpretation with the examination of the theological and philosophical preconceptions that have influenced it and surveys the history of interpretation from different perspectives. Key perspectives studied include the historical dimension, addressing how interpretation has developed at various periods of time from early Jewish exegesis to the historical critical method; the conceptual approach, looking at the various schools of thought that have generated biblical interpretation and compares and contrasts competing conceptual models of interpretation; the personal perspective, addressing the reality of biblical interpretation by individuals who have helped plot the course of theological development. With relevant bibliographies and a guide to further reading, this Dictionary will be an extremely important reference held for many years not only by libraries but also by students, scholars, clergy and teachers of this fascinating and high-profile subject.

The Gospel of John in Modern Interpretation Stanley E. Porter, Ron C. Fay, 2018-10-30. The Gospel of John in Modern Interpretation provides a unique look at the lives and work of eight interpreters who have significantly influenced Johannine studies over the last two centuries. The chapters contain short biographical sketches of the scholars that illuminate their personal and academic lives, followed by summaries and evaluations of their major works and concluding with an analysis of the ongoing relevance of their work in contemporary Johannine scholarship. Key thinkers surveyed include C. H. Dodd, Rudolf Bultmann, Raymond Brown, Leon Morris and R. Alan Culpepper. An introduction and conclusion by general editors Stanley Porter and Ron Fay trace the development of Johannine scholarship from F. C. Baur to the present and examine how these eight scholars

contributions to Johannine studies have shaped the field Anyone interested in the recent history of the study of John will find this volume indispensable

War Time Preaching and Teaching Jeffrey J. Richards, 2012-10-22 War Time Preaching and Teaching explores the hermeneutics science of interpretation and homiletics art of preaching of both Rudolf Bultmann and Dietrich Bonhoeffer The book explores the thought and impact of these two theologians primarily within the American debate Both Bultmann and Bonhoeffer are somewhat misunderstood and it seems that they are either totally accepted or rejected depending in many instances on one's personal understanding of their method of biblical interpretation The book attempts to objectively view their methods of biblical interpretation and how they expressed their research in their writings preaching and teaching Both concluded that the presenting of the Gospel in a relevant manner is the ultimate need for humankind today Both lived during a most challenging period of world history but were able to communicate in a captivating manner Certainly the times in which we live today call for those who possess a similar commitment
