Jeffrey J. Richards

Rudolf Bultmanns Theology A Critical Interpretation:

Rudolf Bultmann's Theology Robert Campbell Roberts, 1976 The name of Rudolf Bultmann would feature prominently on any list of the influential figures in twentieth century theology even if such a list were compiled by someone disagreeing radically with most of his conclusions Without a doubt Robert C Roberts asserts part of the reason for Bultmann's overwhelming influence is the underlying consistency of his work There is an extraordinary systematic unity to Bultmann's theological and philosophical writings With that in view Robert seeks in this penetrating new study to explore that thought as a whole The metaphysical terrain on which the structure of Bultmann's theology is built is the division of reality into world and existence If such a reading of human existence seems a bit far afield from what an ordinary reading of the New Testament yields it is because Bultmann would contend the first century authors and readers clung to a mythological worldview we can no longer accept Bultmann expends considerable hermeneutical ingenuity in the effort to demonstrate that his understanding is in fact what the New Testament really means Robert scrutinizes Bultmann's detailed treatment of theological problems and doctrines the heart of this analysis being a critical look at his views on science and mythology language and meaning understanding and exegesis Three final chapters address specific theological topics God ethics and faith Publisher *War Time Preaching and Teaching* Jeffrey J. Richards, 2012-10-22 *War Time Preaching and Teaching* explores the hermeneutics science of interpretation and homiletics art of preaching of both Rudolf Bultmann and Dietrich Bonhoeffer The book explores the thought and impact of these two theologians primarily within the American debate Both Bultmann and Bonhoeffer are somewhat misunderstood and it seems that they are either totally accepted or rejected depending in many instances on one's personal understanding of their method of biblical interpretation The book attempts to objectively view their methods of biblical interpretation and how they expressed their research in their writings preaching and teaching Both concluded that the presenting of the Gospel in a relevant manner is the ultimate need for humankind today Both lived during a most challenging period of world history but were able to communicate in a captivating manner Certainly the times in which we live today call for those who possess a similar commitment **Theologische Revue**, 1977

Biblical Interpretation in Early Christian Gospels Thomas R. Hatina, 2020-03-19 This volume is the fourth in a set of volumes which together explore current approaches to the study of scripture in the Gospels Thomas R Hatina's latest edited collection begins with an introduction surveying methodological approaches used in the study of how scriptural allusions quotations and references function in John with subsequent essays grouped into four categories that represent the breadth of current interpretive interests The contributors begin with historical critical approaches before moving to rhetorical and linguistic approaches literary approaches and finally social memory approaches Each study contains not only recent research on the function of scripture in John but also an explanation of the approach taken making the collection an ideal resource for both scholars and students who are interested in the complexities of interpretation in John's context as well as our own

Meaning and History in Systematic Theology Robert M. Doran, 2009 This Festschrift is written in honor of theologian and philosopher Robert Doran one of the most creative and important Lonergan scholars working today His magnum opus Theology and the Dialectics of History 1990 integrated his reworking of depth psychology into a theory of history that serves as a foundation not only for systematic theology but also for interdisciplinary collaboration It relies on Lonergan's seminal contribution to the reversal of the post Enlightenment crisis of meaning that is his emphasis on the subject's intelligent and responsible self appropriation as the foundation of epistemology metaphysics and human collaboration Doran's achievement is a profound development of this work and it provides fecund ground that enables Lonergan's legacy to make itself felt across the humanities the human sciences and beyond The range of contributions contained in this volume points to the immense significance of Doran's work and they cover topics as varied as communication studies critical history depth psychology pastoral theology philosophy religious diversity and systematic theology These different concentrations ensure that this collection of essays is of use to readers who are curious about the relevance of Lonergan's critical realism to a breadth of scholarly disciplines It is also of acute interest to established scholars who are well aware of the merits of Doran's contributions to Lonergan Studies and who wish to gain an understanding of the directions in which his work is being both employed and developed Publisher's website *Theology in Folk Culture* George MacDonald Mulrain, 1984 The theology which has for long monopolized the world scene is a reflection of God talk by people of the rich western nations By contrast

the religious experiences of people within the poorer countries have often been regarded as having little or nothing worthwhile to contribute to the mainstream of theological scholarship. As such there is a need for theologians of the developed world as well as those from the so called third world to appreciate the wealth of theological insights which emanate from folk cultures across the world. A truly multicultural approach to theology will emerge only when we admit that each culture has something unique to offer in our understanding of God. *The Journal of Religion*, 1977. *The Shining Garment of the Text* Alison E. Jasper, 1998. Taking the prologue of John's Gospel as a case study in feminist biblical criticism the author engages with a persistent view that the biblical text is seriously compromised by its association with patriarchal values. Close analysis of five interpretations by Augustine Hildegard von Bingen Martin Luther Adrienne von Speyr and Rudolf Bultmann shows how unavoidably interpretation clothes the biblical text with the varied and dazzling patterns of the patriarchal reading context. But in a second turn drawing on the techniques of both structuralist criticism and deconstruction and offering three further inventive readings of this powerful passage Jasper reflects woman and the feminine in the shining garment of her own contextualized reading. *Journal of Ecumenical Studies*, 1978. *Union Seminary Quarterly Review*, 1975. **Comprehensive Dissertation Index, 1861-1972: Philosophy and religion** Xerox University Microfilms, 1973.
