An ethnographic exploration of the relationship between music and social and political consciousness on the island of Trinidad **Ruins of Absence, Presence of Caribs** Maximilian Christian Forte, 2005 This study of a contemporary indigenous culture documents the vitality of a number of self constructed indigenous Carib communities in the postcolonial Caribbean These small groups which have asserted their presence through folklore tradition and ceremony have received recognition and support from the state attention from national media and a privileged place in historical discussions of the figure of the Carib The Caribbean is typically thought of as having no precolonial survivors Maximilian Forte demonstrates that this is not the case He convincingly argues that an indigenous presence has persisted in Trinidad and Tobago as an actual demographic presence and a symbolic force since the colonial period Focusing on the Santa Rosa Carib Community in

Arima Trinidad he explores how Carib has come into being as a meaningful category in Trinidad how it has been challenged and reengineered and how it affects the relationship between colonial political economy and modern identity formation He also explores two previous resurgences of Amerindian community and identity in Trinidad in the 1820s and again in the 1870s to the 1920s Balanced between history and contemporary ethnography this book ranges from the analysis of the forces of globalization to the performance of local rituals By tracing notions and labels Carib Arawak Indian through time Forte shows how indigeneity is deeply enmeshed in historical processes and has deliberately been constructed from the time of the first encounters between Europeans and Trinidad s native peoples up to the present He maintains that the social position of Indian is created by various agents including culture brokers or intermediaries as well as by institutions such as the church and by organs of the state Using the individual biographies of activists in Arima where he conducted fieldwork for nearly four years Forte also shows how intracultural diversity looks at the ground level In addition his historical analysis offers a fascinating commentary on attitudes toward African European Asian and Venezuelan peoples and heritages and on the flow of images and information between the Americas and the Caribbean
