different industrial sectors and this book provides a scientific approach for managing Team Engineering Meta cognitive knowledge and networks are identified as the key resources enabling engineering teams to work effectively and to reduce engineering time and this book illustrates how computer support can aid cooperative work within the context of practical methodologies and examples The fields covered in the book include State of the art research in cooperative learning tools Practical examples and methodologies illustrating the implementation of cooperative networks and An interdisciplinary approach to team engineering This valuable new book is sponsored by the International Federation for Information Processing IFIP and will be essential reading for researchers engineers technical managers involved in the development of advanced applications for engineering and manufacturing and software design and engineering *Real-Time & Stream Data Management* Wolfram Wingerath,Norbert Ritter,Felix Gessert,2019-01-02 While traditional databases excel at complex queries over historical data they are inherently pull based and therefore ill equipped to push new information to clients Systems for data stream management and processing on the other hand are natively pushoriented and thus facilitate reactive behavior However they do not retain data indefinitely and are therefore not able to answer historical queries The book provides an overview over the different push based mechanisms for data retrieval in each system class and the semantic differences between them It also provides a comprehensive overview over the current state of the art in real time databases It sfirst includes an in depth system survey of today s real time databases Firebase Meteor RethinkDB Parse Bagend and others Second the high level classification scheme illustrated above provides a gentle introduction into the system space of data management Abstracting from the extreme system diversity in this field it helps readers build a mental model of the available options Deutsche Nationalbibliographie und Bibliographie der im Ausland erschienenen deutschsprachigen Veröffentlichungen ,1996 **Verzeichnis lieferbarer Bücher** ,1988 **Forthcoming Books** Rose Arny,1996-06 *German books in print* ,1995 **American Book Publishing Record** ,1996 IBM Systems Journal International Business Machines Corporation,2002 **Books In Print 2004-2005** Ed Bowker Staff,Staff Bowker, Ed,2004 *International Books in Print* ,1986 **Expert Database Systems. 1988** Carlo Zaniolo,1988
