Rural Politics In Nassers Egypt:

Rural politics in Nasser's Egypt James B. Mayfield, 1971 **Rural Politics in Nasser's Egypt** James B. Mayfield, 2014-09-01 On September 29 1970 President Gamal Abdel Nasser died of a heart attack The hysterical outpouring of grief at the state funeral dramatized the depth to which the loss of this charismatic leader shook the Arab world Few men have achieved the love prestige and adulation that Nasser received from the Arab masses Yet in reality Nasser s political life was a tragic story This book is a careful analysis of Nasser s belated attempts to modernize the rural areas of Egypt It documents the political economic and social factors that made Nasser s dream for his people unattainable in his lifetime Forced to choose between domestic needs and international challenges Nasser s attention was too often directed beyond the borders of Egypt His vision of renewed Arab greatness his dream of Arab unity and his concern for Arab development often distorted his perception of his own country While no one who personally conversed with Nasser doubted his sincere desire for a better life for the peasants of the Nile Valley many noted his tendency to allocate resources more on the basis of dreams rather than the realities of Egypt s domestic problems Granted permission to move freely through Egypt s twenty five provinces prior to the 1967 travel restrictions James B Mayfield had a unique opportunity to personally observe Nasser s dramatic attempts to bring progress and development to his people The two decades of Nasser s rule colored and shaped events in Egypt for many years after his death **The Politics of Egypt** Ninette S. Fahmy, 2012-10-12 This book addresses two important matters of current concern to Middle East scholars firstly the nature of the Egyptian state and society and the interactive process between them and secondly how change which would finally lead to development can be initiated The book argues that the Egyptian case represents a weak authoritarian state which through its coercive and repressive policies towards various societal forces political parties professional associations and organisations and individuals creates a weak society Individual behaviour in urban and rural communities sometimes viewed as signs of the strength of societal forces is seen here as a symptom of a weak and fragmented society The existence of a weak society in turn impedes government objectives and hinders the implementation of developmental policies and programmes further weakening the state This being the case change has to be initiated externally in both the political and economic spheres **Egypt's Uncertain Revolution Under Nasser and Sadat** Raymond William Baker, 1978 **Asian and African Studies** meisai.org.il, **Egypt, Politics and Society, 1945-1981** Derek Hopwood, 1982 **Konfliktlinien der ägyptischen Gesellschaft 1986-1988** Georg Stauth, 1986 **1974 Annual Supplement** Joan Schmitz Bergholt, 1975-01-04 Bildungssystem und Gesellschaft in Ägypten Ghalib Jarrar, 1979 **Handbook of Political Science Research on the Middle East and North Africa** Bernard Reich, 1998-05-21 Facilitating research on Middle Eastern and North African politics this volume is a major reference work A series of chapters describe the post World War II research on the politics of the states and of the Palestinians of the region The literature on international relations of the region is reviewed and the approach to political economy is discussed Written

by the foremost experts on their respective subjects the chapters also identify the gaps in the literature and fruitful areas for future research The chapter references constitute a bibliographical treasure for those seeking to study the politics of the region Annotations enable the reader to better select works for further research This volume provides a complete analysis of the state of the field an agenda for future research and a detailed annotated bibliography of the best research published

The Government And Politics Of The Middle East And North Africa, Fourth Edition David Long, Bernard Reich, 2002-04-08 Rapid social economic and political change is endemic to the Middle East and is often more revolutionary than evolutionary in nature In many ways the entire political landscape of the Middle East has been transformed in the past decade in the realm of both international relations and domestic politics The collapse of the Soviet Union the end of the cold war and the Iraqi invasion of Kuwait have all had a profound effect on relations among states within the region and between those states and countries outside the region In this revised edition Long and Reich provide comprehensive and up to date analyses of many critical contemporary events and issues The contributors explain how Desert Storm isolated Iraq and brought Syria back into the mainstream of Arab politics contributing to the revival of the Arab Israeli peace process They also show how the return of a Labor government in Israel has allowed the peace process to go forward Evaluating the economic costs of the Kuwait war and the continuing oil glut the authors find that resulting changes in the domestic economies of the oil producing states have created additional pressures for social and political change The most profound change in government and politics however is the rise of Islam as the idiom of political discourse among moderates as well as extremists **Comparative**
