*The Pitmen of the Northern Coalfield* Robert Colls,1987      **The Pitmen's Requiem** Peter Crookston,2014-01-05 Peter Crookston's book offers a beautifully written journalist's account of a Durham mining village and the Great Northern Coalfield woven around the life of Robert Saint the composer of *Gresford* a brass band composition commemorating an earlier mining disaster in which 256 workers died Crookston brings his formidable observational qualities and writing skills as a journalist to produce a gripping narrative with utterly compelling characters and a heart-rending culmination in the demise of the mining industry under assault by Thatcher The story is told in a gentle unpretentious way frequently giving voice to the characters themselves many of whom the author knew personally or got to know in preparing the book Apart from capturing a critical moment in a disappearing world the book offers a vantage point from which to reflect on our own culture and what we have lost in post industrial Britain the loss of community which did so much to sustain and nurture those miners in their desperate plights This is as much a history of culture and place as much as it is biography a book that is at once an elegy and a tribute

Master and Servant Law Christopher Frank,2016-05-06 In recent years social and legal historians have called into question the degree to which the labour that fuelled and sustained industrialization in England was actually free The corpus of statutes known as master and servant law has been a focal point of interest throughout the eighteenth and nineteenth centuries at the behest of employers mine owners and manufacturers Parliament regularly supplemented and updated the provisions of these statutes with new legislation which contained increasingly harsh sanctions for workers who left work performed it poorly or committed acts of misbehaviour The statutes were characterized by a double standard of sanctions which treated workers' breach of contract as a criminal offence but offered only civil remedies for the broken promises of employers Surprisingly little scholarship has looked into resistance to the Master and Servant laws This book examines the tactics rhetoric and consequences of a sustained legal and political campaign by English and Welsh trade unions Chartists and a few radical solicitors against the penal sanctions of employment law during the mid nineteenth century By bringing together historical narratives that are all too frequently examined in isolation Christopher Frank is able to draw new conclusions about the development of the English legal system trade unionism and popular politics of the period The author demonstrates how the use of imprisonment for breach of a labour contract under master and servant law and its enforcement by local magistrates played a significant role in shaping labour markets disciplining workers and combating industrial action in many regions of England and Wales and further into the British Empire By combining social and legal history the book reveals the complex relationship between parliamentary legislation its interpretation by the high courts and its enforcement by local officials This work marks an important contribution to legal
