Place Apart An Anthropological Study Of The Icelandic World:

A Place Apart Kirsten Hastrup, 2023 This is an anthropological study of the Icelandic world It explores the features of Icelandic society culture tradition and ideology in the 20th century **A Place Apart** Kirsten Hastrup, 1998 A Place Apart offers a rich and reflective representation of Iceland and Icelanders today Kirsten Hastrup draws upon extensive first hand research but also upon her original theory of what anthropology is and should be which this book exemplifies In two previous books she studied the processes and patterns which shaped Icelandic society from medieval times to the nineteenth century now she brings this historical study up to date by drawing out the dominant themes in present day Icelandic self understanding In many ways Icelanders sustained image of themselves as a singular people in the world refracts the actual social reality The image tends to favour particular interpretations of history as well as particular social groups as Hastrup shows through analyses of tradition and ideology landscape and memory community and honour She investigates the ways in which everyday life is informed by a living tradition and a stress on the historical depth and cultural uniqueness of this place apart The result is a renewed sense of the texture of the Icelandic world seen not as a static and prescriptive culture but rather as a space within which Icelanders are suspended between modernity and consciousness of the antiquity of Icelandic values between presentness and pastness *Island - Eine Literaturgeschichte* Jürg Glauser, 2017-01-21 Obwohl ein isländisches Sprichwort besagt das Gesehene ist reicher als das Gehörte, so wird und wurde die Kultur Islands vor allem von der Sprache bestimmt Der Autor lässt die Wortkunst Islands in ihren vielfältigen Ausprägungen lebendig werden Er beschreibt die Verknüpfung von Landschaft Nation und Sprache über die sich die Isländer oft definieren Neben den mittelalterlichen Sagas der Skaldendichtung den Elfen und Gespenstergeschichten stellt er die religiöse Literatur des Barock sowie aufklärerische und romantische Werke vor Weitere Themen Der lyrische Modernismus der 1950er Jahre die Erzählungen und Romane von Gunnar Gunnarsson und Halldór Laxness zeitgenössische Krimis die Liedtexte Sjóns und Björks aber auch die bis heute lebendige Kultur handschriftlich zirkulierender Dichtung The Routledge Research Companion to the Medieval Icelandic Sagas Ármann Jakobsson, Sverrir Jakobsson, 2017-02-17 The last fifty years have seen a significant change in the focus of saga studies from a preoccupation with origins and development to a renewed interest in other topics such as the nature of the sagas and their value as sources to medieval ideologies and mentalities The Routledge Research Companion to the Medieval Icelandic Sagas presents a detailed interdisciplinary examination of saga scholarship over the last fifty years sometimes juxtaposing it with earlier views and examining the sagas both as works of art and as source materials This volume will be of interest to Old Norse and medieval Scandinavian scholars and accessible to medievalists in general

Iceland's Networked Society Tara Carter, 2015-05-26 Linked by the politics of global trade networks Viking Age Europe was a well connected world Within this fertile social environment Iceland ironically has been casted as a marginal society too remote to participate in global affairs and destined to live in the shadow of its more successful neighbours Drawing on new

archaeological evidence Tara Carter challenges this view arguing that by building strong social networks the first citizens of Iceland balanced thinking globally while acting locally creating the first cosmopolitan society in the North Atlantic Iceland's Networked Society asks us to reconsider how societies like Iceland can even when positioned at the margins of competing empires remain active in a global political economy and achieve social complexity on its own terms **Europa**

Anthropological Research, 2016 Migration and Mental Health Marjory Harper, 2016-06-17 The relationship between migration and mental health is controversial contested and pertinent In a highly mobile world where voluntary and enforced movements of population are increasing and likely to continue to grow that relationship needs to be better understood yet the terminology is often vague and the issues are wide ranging Getting to grips with them requires tools drawn from different disciplines and professions Such a multidisciplinary approach is central to this book Six historical studies are integrated with chapters by a theologian geographer anthropologist social worker and psychiatrist to produce an evaluation that addresses key concepts and methodologies and reflects practical involvement as well as academic scholarship Ranging from the mid nineteenth century to the present the book explores the causes of mental breakdown among migrants the psychological changes stemming from their struggles with challenging life circumstances and changes in medical political and public attitudes and responses in different eras and locations *Nordic Landscapes* Michael Jones, 2008 The first in depth

presentation of the Nordic landscapes to be published in nearly twenty years Norden the region along the northern edge of Europe bordered by Russia and the Baltic nations to the east and by North America to the west is a particularly fruitful site for the examination of the ever evolving meaning of landscape and region as place Contributors to this work reveal how Norden's regions and people have been defined by and against the dominant culture of Europe while at the same time their landscapes and cultures have shaped and inspired Europe's ways of life Together the essays provide a much needed picture of this culturally rich and geographically varied part of the world pub desc **The Journal of the Royal Anthropological**

Betty Wahl, 2008 **The Archaeology of Ritual** Evangelos Kyriakidis, 2007 This book is the fruit of the third Cotsen Advanced Seminar conducted at UCLA A wide spectrum of scholars historians art historians anthropologists students of performance students of religion archaeologists cognitive scientists and linguists were all asked to think and comment on how ritual can be traced in archaeology and which ways ritual research can go in that discipline The product is a fairly accurate representation of research on ritual and the archaeology of ritual scholars from various disciplines backgrounds and agendas arguing mostly in the most logical fashion yet with little agreement between them So this book should not be seen as presenting one unified attitude towards ritual and its study in archaeology It should rather be seen as a reflection of what the discourse in the archaeology of ritual is today The outcome has been extremely thought provoking often controversial but always of extremely high quality Anthropology and History in Franche-Comté Robert Layton, 2000 This is a study of continuity and change in rural France based on fieldwork carried out over a period of 25 years and on historical documents spanning more than 300 years Producer co operatives have existed in Franche Comt since the thirteenth century Communities there unlike modern English villages are highly corporate Robert Layton explores the relationships between inheritance rules management of common land household labour and inter household relations as well as the impact on villages of national politics and economy Comparison with other regions of Western Europe allows a reinterpretation of the eighteenth century enclosures in England Layton presents a dialogue between ethnography and social theory and argues for a revision of the theories of Marx Giddens and Bourdieu so as to better explain the mechanisms of continuity change and adaptation in social life **Encyclopedia of Urban Cultures** Melvin Ember, Carol R. Ember, 2002 Presents articles on over 240 major cities around the world including demographic information history politics public systems culture social life and future outlook **Folk** Johannes Nicolaisen, Jens Yde, 2004 **Identity and Ecology in Arctic Siberia** David G. Anderson, 2000 This is a first hand account of a reindeer herding collective in the remote Taimyr peninsula of Siberia The author gives an intimate description of the day to day lives of a little known group of Evenkis as they face both economic and ecological challenges His study addresses questions of identity nationalism and ecological theory as well as mapping the changes caused in the region by the formation of and the recent break up of the Soviet Union **Viking and Medieval Scandinavia** , 2005 **Changing Inner Mongolia** David Sneath, 2000 Since the Chinese Communists took control of Inner Mongolia very little has been written about the region This book is an attempt to redress the balance It is a study of the effect of decades of social engineering on a Minority Nationality in China David Sneath charts the recent history of the pastoral Mongolians of Inner Mongolia since they became the subjects of the Chinese Communist state and examines the society that has emerged since the abolition of the Communes in the 1980s He explores the history of local economic and political forms to illuminate the transformations and continuities of life in pastoral Mongolian society and offers an account that includes both the swings of national and regional government policy and the experiences of individuals subject to those

changes By taking a historical perspective his study reveals underlying modes of symbolism and notions of domestic organization and paternalistic authority that have remained fundamental to pastoralism in Inner Mongolia It suggests an indigenous mechanism for economic inequality and dependency in pastoral society one that has helped to shape the pastoral nomadic sociopolitical order of the past
