*Bird-Bent Grass* Kathleen Venema, 2018-03-22 *Bird Bent Grass* chronicles an extraordinary mother daughter relationship that spans distance time and eventually debilitating illness Personal familial and political narratives unfold through the letters that Geeske Venema de Jong and her daughter Kathleen exchanged during the late 1980s and through their weekly conversations which started after Geeske was diagnosed with Alzheimer's disease twenty years later In 1986 Kathleen

accepted a three year teaching assignment in Uganda after a devastating civil war and Geeske promised to be her daughter's most faithful correspondent. The two women exchanged more than two hundred letters that reflected their lively interest in literature, theology and politics and explored ideas about identity, belonging and home in the context of cross cultural challenges. Two decades later, with Geeske increasingly beset by Alzheimer's disease, Kathleen returned to the letters where she rediscovered the evocative image of a tiny bright meadow bird perched precariously on a blade of elephant grass. That image of simultaneous tension, fragility, power and resilience sustained her over the years that she used the letters as memory prompts in a larger strategy to keep her intellectually gifted mother alive. Deftly woven of excerpts from their correspondence, conversations, journal entries and email updates, *Bird Bent Grass* is a complex and moving exploration of memory, illness and immigration, friendship, conflict, resilience and forgiveness, cross cultural communication, the ethics of international development and letter writing as a technology of intimacy. Throughout it reflects on the imperative and fleeting business of being alive and loving others while they're ours to hold.
