Eric Carstensen, 2022-02-09 Seminar paper from the year 2020 in the subject Business economics Offline Marketing and
Online Marketing grade 3 AFUM Akademie für Unternehmensmanagement GmbH language English abstract This coursework

technology and continues to expand more and more worldwide The prices of the products are low and it is suitable for every
household In order to compete even more in the global market this paper will show in which countries the company will be
distributed next The focus is on the western European market where four countries are selected in which Ring is expanding
its market First the company Ring is described in more detail including which products are sold how much the company is
worth and whether it has already helped against burglaries The next step is to look at which countries in Western Europe
should start selling security products taking into account the crime rate and the rate of burglaries and thefts After that
potential companies are considered who can sell Ring's security products in order to make the highest possible profit and
enter the market on a large scale For this purpose the largest possible companies and supermarkets are looked at so that as
