Rule By Incarnation Tibetan Buddhism And Its Role In Society And State:

Rule By Incarnation Franz Michael, 2019-06-26 The 1959 Chinese military takeover of Tibet brought an end to a unique way of life in which Buddhism provided legitimacy to political and social authority in Tibet and served as value system cultural bond philosophy of life and framework for a complex political and social order The religious political system of Tibet now exists only in the memories of those who experienced it This book documents the human heritage and cultural traditions of Tibet s singular society as they developed and existed during a period of several hundred years Using Max Weber s framework of the interrelationship between religious ideologies and the emergence of social economic and political systems Franz Michael and his colleagues analyze the concepts that are central to Tibetan Buddhism and apply them to the Tibetan people their social and political order and their way of life Much of the study is based on interviews with Tibetans in exile from incarnations and highly placed ecclesiastical and secular government leaders to farmers herdsmen and housewives The result is important not only as the record of a culture but also as it is related by the authors to the broader issue of the modernization of non Western traditional societies *Reincarnation in Tibetan Buddhism* Ruth Gamble, 2018-07-09

Reincarnation in Tibetan Buddhism examines how the third Karmapa hierarch Rangjung Dorj 1284 1339 transformed reincarnation from a belief into a lasting Tibetan institution Born the son of an itinerant low caste potter Rangjung Dorj went on to become a foundational figure in Tibetan Buddhism and a teacher of the last Mongolian emperor He became renowned for his contributions to Buddhist philosophy literature astrology medicine architecture sacred geography and manuscript production But as Ruth Gamble demonstrates his most important legacy was the transformation of the Karmapa reincarnation lineage to ensure that after his death subsequent Karmapas were able to assume power in the religious institutions he had led The inheritance model of reincarnation instituted by Rangjung Dorj changed the Tibetan Plateau s power relations which until that time had been based on family associations and created a precedent for later reincarnate institutions including that of the Dalai Lamas Drawing on Rangjung Dorj s hitherto untranslated autobiographies and autobiographical songs this book shows that his reinvention of reincarnation was a self conscious and multi faceted project made possible by Rangjung Dorj s cultural social and political standing and specific historical and geographical circumstances Exploring this combination of agency and historical coincidence this is the first full length study of the development of the reincarnation institution

historical source material The guidelines are witness to certain socio economic changes while also containing rules that aim to change the monastery in order to preserve it Jansen argues that the monastic institutions influence on society was maintained not merely due to prevailing power relations but also because of certain deep rooted Buddhist beliefs **Rule by incarnation** Franz H.
