Whitaker's Books in Print ,1998 **Our Swindling Finance Houses** Guy Tallice,2002-03-11 The financial services
industry has never been exposed before in all its guile and deceit This is probably because the present book is an insider s
view by one of the many unemployed enmeshed by the false promises of the industry This is a step by step account by
someone who was drawn into the industry despite initial scepticism describing the sleight of hand and fraudulent promises
used by a major company against its own prospective and actual sales staff Filled with sardonic humour and unforgettable
character sketches there are horrific stories of those inveigled into huge loans and second mortgages with no chances of
repayment and all cleverly pursued as part of the company s strategic policy Ingenious psychological techniques are
employed by this household name in the financial services field to ensure the entrapment of their Sales Associates often
leading to a ruinous debt situation and despair The book reveals how basically decent and honest people trusting in the
overall integrity of the business process are drawn into the industry corrupted and then made to act in a dishonest way even
if only unintentionally The editor s Introduction interprets the company s rationale as due to the fraudulent aspect of the
financial services themselves arising from the introduction of unit linked policies fluctuating in line with the value of the unit
trusts in which the premiums are invested as contrasted with the safe conventional policies of an earlier era Consequently
the selling of the new style policies became dependent on computer models of past performance having little relevance with
the real world in demonstrating the future This is a criticism which goes far beyond the well publicised e mis selling of

Personal Pension Plans PEPs and other policies In view of the high risk nature of the policies themselves the personality of prospective sales people needed to be broken down and made malleable in e living with e let alone promoting questionable practices which came to be perceived as the common norm of truth Hype and inflated promises were used as a mask to cover deceitful aspects of the industry The final chapter draws up proposals for safeguarding the unemployed the main recruitment target of the industry and the most vulnerable sector of our population and for reforming the financial services industry The industry should be made into a profession with proper academic training and the corrupting profit motive has to be removed if the public are to benefit from best advice **Corporation Annual Reports to Shareholders** ,1988 **Benn's Media**
