Rural Infrastructure From A World Bank Perspective A Knowledge Management Framework:

Rural Infrastructure from a World Bank Perspective Louis Y. Pouliquen, 1999 Rural infrastructure is critical to both economic and social development Its absence thwarts growth and typically the poor are those hurt the most The purpose of this paper is to serve as a basis for knowledge management on rural infrastructure In the 1970s the primary if not the unique objective of rural infrastructure lending was to get rural infrastructure built However the institutional aspects of how this infrastructure was to be built and later how it would be operated and maintained did not receive much attention Only recently has poverty alleviation through employment creation become an explicit objective of rural infrastructure investments This review tracks the poverty alleviation objective of rural infrastructure projects using three criteria 1 whether poverty was an explicit criterion in the selection of specific sub projects 2 whether poverty was addressed in the pricing of rural infrastructure services and 3 whether poverty was addressed through the creation of employment Do Rural Infrastructure Investments Benefit the Poor? Jocelyn A. Songco, 2002 Asses the impact of rural infrastructure projects on the rural poor and very poor Knowledge Management Morgen MacIntosh, Taverékere Srikantiah, 2000 Here is the first comprehensive reference to the literature available for the individual interested in KM featuring citations to over 1 500 published articles 150 Web sites and more than 400 books Organized by topic area this is a natural companion volume to Knowledge Management for the Information Professional and an important tool for anyone charged with contributing to or managing an organization s intellectual assets *Cities in a Globalizing World* Un-Habitat, 2012-06-25 The world has entered the urban millennium Nearly half the world s people are now city dwellers and the rapid increase in urban population is expected to continue mainly in developing countries This historic transition is being further propelled by the powerful forces of globalization The central challenge for the international community is clear to make both urbanization and globalization work for all people instead of leaving billions behind or on the margins *Cities in a Globalizing World* Global Report on Human Settlements is a comprehensive review of conditions in the world s cities and the prospects for making them better safer places to live in an age of globalization I hope that it will provide all stakeholders foremost among them the urban poor themselves with reliable and timely information with which to set our policies right and get the machinery of urban life moving in a constructive direction From the Foreword by Kofi Annan Secretary General United Nations *Cities in a Globalizing World* presents a comprehensive review of the world s cities and analyses the positive and negative impacts on human settlements of the global trends towards social and economic integration and the rapid changes in information and communication technologies In this Global Report the United Nations Centre for Human Settlements Habitat draws on specially commissioned and contributed background papers from more than 80 leading international specialists The report focuses on recent trends in human settlements and their implications for poverty inequity and social polarization It develops advance knowledge for urban planning and management policies in support and promotion of inclusive cities and good urban

governance This major and influential report is the most authoritative and up to date assessment of human settlements conditions and trends Written in clear non technical language and supported by informative graphics case studies and extensive statistical data it should be an essential tool and reference for academics researchers planners public authorities and civil society organizations around the world *The World Bank* Elisabeth P. McLellan,2003 The advances of technology and business have made the world and its nations increasingly interconnected and interdependent in an era of globalisation In such an environment the events in one country can and will have a definitive influence on the conditions in others Examples abound in the stock market capital flows living standards and pollution The World Bank assembles the collective financial resources of its member nations and uses these funds to address the concerns of its clients It is a development institution that has a primary goal of reducing world wide poverty by promoting economic growth in individual countries To this end the Bank sponsors an array of programs that contribute to the fight against poverty by funding economic reforms fighting corruption and assisting war torn nations From the client nations the Bank requires an budgetary agenda that balances both economic efficiency and social programs It is this requisite balancing act that has brought the World Bank a great deal of criticism from anti globalisation protestors who feel that the Bank mandates hinder social advances in poor and struggling nations Nonetheless the Bank continues to fund and support its lofty goals in nations around the world and has responded to its critics by easing some of its lending restraints This book delves into the issues surrounding the World Bank which holds a tangible and important influence on every nation in this global society In order to understand and form a solid opinion about the Bank s role history and future one must be familiar with the information presented here *The Role of Public Infrastructure in Market Development in Rural Peru* Javier Escobar D'Angelo,2005 **Infrastructure in India's Development** S.
