John Ruskin

Ruskin And Venice:

Ruskin and Venice Jeanne Clegg, 1981 John Ruskin made eleven trips to Venice the first with his family in 1835 when he was sixteen the last in 1888 one year before he became irreversibly mad The city had an importance for his art criticism for his political thought and even for his sad emotional life which can scarcely be exaggerated This book which contains a mass of new documentation deals with the eleven journeys and their consequences in turn Jacket Ruskin and Venice Robert Hewison, 1978 *Ruskin on Venice* Robert Hewison, 2009 Drawing on the rich resources of Ruskin's drawings architectural notebooks and manuscripts Hewison offers fresh insights into both Ruskin and Venice and reveals how Ruskin's work and his connection with the city from youth to old age have helped to shape the image of the Venice we know today **The Works of John Ruskin ...: The stones of Venice 4th ed. 1886** John Ruskin, 1886 *Ruskin's Venice* John Ruskin, 1976 A visitor's guide to the architecture sculpture and painting of Venice **RUSKIN'S VENICE** SARAH. QUILL, 2017 *Ruskin's Venice* Sarah Quill, 2000 This beautiful book is an illustrated guide to The Stones of Venice which links Ruskin's descriptions of individual buildings with a contemporary photographic record of the architecture and sculpture as it is seen today *John Ruskin - The Stones of Venice - Volume III (of III): "The Purest and Most Thoughtful Minds Are Those Which Love Colour the Most."* John Ruskin, 2017-08-07 John Ruskin was born on February 8th 1819 at 54 Hunter Street Brunswick Square London Ruskin is now recognised as the pre eminent English art critic of the Victorian era His talents and interests were diverse and complex He was also an art patron draughtsman water colourist a prominent social thinker and philanthropist His writing was across subjects from geology architecture myth ornithology and literature to education botany and political economy As well Ruskin also wrote essays and treatises poetry and lectures travel guides and manuals letters and even a fairy tale Ruskin's earliest writings were initially elaborate but over the course of his long career he gradually moved to a far plainer form which communicated his ideas in a simpler and more effective way All his writings have a common core of emphasising the connections between nature art and society He first came to widespread attention with the first volume of *Modern Painters* published in 1843 an extended essay in defence of the work of the painter J M W Turner in which he argued that the principal role of the artist is truth to nature He would later on the death of Turner be an executor of his will From the 1850s he championed the Pre Raphaelites who were much influenced by his ideas As his style developed so did his social concerns and increasingly he voiced and wrote about his social and political issues Unto This Last 1860 1862 marked the shift in emphasis In 1869 Ruskin became the first Slade Professor of Fine Art at the University of Oxford where he established the Ruskin School of Drawing In 1871 he began his monthly letters to the workmen and labourers of Great Britain published under the title *Fors Clavigera* 1871 1884 During the publication of this complex and deeply personal work he developed the principles underlying his ideal society As a result he founded the Guild of St George an organisation that still endures to this day John Ruskin died on January 20th 1900 at age 80 at Brantwood in Coniston Lancashire Part of his numerous writings concerned

his work on Venice in three volumes *The Stones of Venice* He visited Venice in November 1849 with his wife Effie and stayed at the water fronted Hotel Danieli Their six year marriage was never consummated and for Effie Venice provided an opportunity to socialise while for Ruskin it was a venue to engage in more solitary studies In particular he made a point of drawing the Ca d'Oro and the Doge's Palace or Palazzo Ducale fearing they would be destroyed by the occupying Austrian troops Ruskin made extensive sketches and notes for the three volume work which soon developed from a technical history of Venetian architecture from the Romanesque to the Renaissance into a broad cultural history Cleverly Ruskin managed to reflect his own view of contemporary England and to weave in a warning about the moral and spiritual health of society Ruskin argued that Venice had slowly deteriorated Its cultural achievements had been compromised and its society corrupted by the decline of true Christian faith Instead of revering the divine Renaissance artists honoured themselves arrogantly celebrating human sensuousness It is a work of immense worth both culturally and artistically
