Leben auf Kredit Felix Krämer, 2024-06-19 Schulden prägen das Leben vieler Millionen Menschen in den USA. Felix Krämer macht sich auf die Suche nach ihren Geschichten von 1865 bis in die Gegenwart. Dabei wird deutlich, dass insbesondere Schwarze Amerikaner, Frauen, Arbeiter\*innen oder Migrant\*innen immer wieder höheren Kreditrisiken oder untragbaren Konditionen ausgesetzt waren. Solche Unterschiede werden mit dem Begriff der Schuldendifferenz adressiert. Das Buch zeigt dies an verschiedenen Verschuldungsformen wie dem System des Sharecropping nach Ende der Sklaverei an Bildern von Loan Sharks oder an Immobilienschulden und zeichnet nach, wie Studienverschuldung und Kreditkartenpraktiken den Neoliberalismus in die Alltagserfahrungen der Menschen brachten. Mit seinem Fokus auf Prekarisierung durch Verschuldung legt das Buch eine Produktionslinie des wealth gap in den USA frei und füllt so eine Leerstelle in der neuen Kapitalismusgeschichte. <https://creativecommons.org/licenses/by-nc-sa/4.0/deed.de>

**The Oxford Handbook of Higher Education in the Asia-Pacific Region** Devesh Kapur, Lily Kong, Florence Lo, David M. Malone, 2023-01-11 Since the turn of the millennium it has become clear that the Asia Pacific Region is economically the fastest growing continent in the world and is likely to remain so for some time despite the setbacks of the COVID 19 pandemic. Asia Pacific's share of the world's Gross Domestic Product (GDP) doubled from 15 per cent to 30 per cent between 1970 and 2017 and is projected to account for half of global GDP by 2050. With South East and South Asia also growing rapidly with over half the world's population and three of the world's five largest economies, Asia is soon poised to home half of the world's middle class, a class that is both the driver and the product of higher education. The quality of a country's system of higher education may be seen both as a gauge of its current level of national development as well as of its future economic prospects. It is therefore natural that the putative Asian Century should generate interest in the region's higher education systems which on the one hand share common characteristics: a fixation with credentials and engineering, high technology especially among male students and business degrees while at the same time are also highly differentiated not only across countries but also within Asia. Such a better understanding of higher education achievements, failings, potential and structural limitations in the Asia Pacific Region is imperative. This handbook presents a number of significant country case studies and documents cross-cutting trends relating to, among other things, the trilemma faced by governments juggling competing claims of access, accessible cost and quality; the balance between teaching and research; the links between labour markets demand and higher education supply; preferred fields of study and their consequences; the rise of the research university in Asia; the lure of institutions of international reputation within the region; new education technologies and their effects; and trends in government policy within the wider region and sub-regions.
