Frontier Research on Artificial Intelligence and Radiomics in Neurodegenerative Diseases Shi-Nan Wu, Wencai Liu, Qi Zhang, Fuqing Zhou, 2025-11-13 As the global population ages the prevalence of neurodegenerative diseases is rising posing significant challenges to healthcare systems Artificial intelligence AI and radiomics are emerging as powerful tools in this domain offering innovative methods for diagnosing monitoring and treating these conditions Radiomics enables the extraction of quantitative features from medical images while AI excels at analyzing large datasets and identifying patterns that might be imperceptible to the human eye The integration of these technologies particularly in neuroimaging holds the potential to revolutionize our understanding and management of neurodegenerative diseases The goal of this research is to address the complex challenges posed by neurodegenerative diseases through the application of AI and radiomics Specifically we aim to 1 Identify and validate novel imaging biomarkers for the early detection and monitoring of neurodegenerative disorders 2 Develop AI driven predictive models to assess disease progression and treatment outcomes enabling personalized healthcare approaches 3 Utilize machine learning and database mining techniques to analyze extensive health datasets uncovering new insights and correlations specific to neurodegenerative diseases 4 Evaluate the clinical utility of these technologies in enhancing diagnostic accuracy improving patient outcomes and optimizing healthcare resources

Contemporary Issues in Early Childhood Education and Care, 2025-02-05 Contemporary Issues in Early Childhood Education and Care delves into the dynamic landscape of early childhood education and critically addresses the intersection of theory and practice offering a range of theoretical frameworks and practical strategies to support the holistic development of children It explores a diverse array of topics including integrating artificial intelligence tools in preschool settings the development of metacognitive skills in young children and the role of participatory practices in fostering democratic engagement It also examines resilience building through innovative playground designs and the importance of inclusive approaches for refugee and immigrant populations This book also presents entrepreneurial coaching as a framework for enhancing children's participation lifelong learning and values driven parenting from a Christian perspective Additionally the volume highlights the impact of the COVID 19 pandemic on young children's psychological well being emphasizing their heightened awareness and involvement in decision making processes Inclusive assessment methods supporting shy children in educational settings are explored and the benefits of slow pedagogy versus hurried schooling are examined Furthermore it investigates the role of statistical analysis in shaping early childhood education policies and practices This work underscores community support systems can mitigate stress and adversity and strengthen children's capacity to thrive in their communities At the same time play environments can nurture physiological and psychological resilience With a strong focus on equity pedagogical innovation and evidence based approaches this volume is an essential resource for educators researchers and policymakers to create inclusive equitable and supportive learning environments that

foster lifelong learning trajectories **Artificial Intelligence and Digital Forensics** Naveen Kumar Chaudhary, Archana Patel, Abinash Mishra, Chothmal Kumawat, 2025-09-04 Artificial Intelligence AI has revolutionized several sectors with digital forensics being one that has been notably affected by its rapid advancement AI brings previously unheard of powers to this field helping authorities examine large datasets identify developments and uncover digital evidence that is essential to cracking cybercrimes Despite these promising developments using AI in digital forensics presents problems The complexity and dynamic nature of cyber attacks are a significant challenge demanding the ongoing adaptation of AI models to new attack strategies This changing environment makes it difficult to create reliable and future proof solutions This book explores the advancements applications challenges and solutions that AI brings to the realm of digital forensics Artificial Intelligence and Digital Forensics Advancements Applications Challenges and Solutions includes the latest applications and examples with real data making the book meaningful for readers It is written in very simple language with each technology having its dedicated chapter that explains how it works and provides an example of a real world application Key points and a summary are provided at the end of each chapter to enable the readers to quickly review the major concepts as it presents a practical understanding so the readers can be better equipped to handle AI based tools with ease and efficiency The book provides unconditional support to those who are making decisions by using massive data from their organization and applying the findings to real world current business scenarios addressing the challenges associated with integrating AI into digital forensics and offering practical solutions It also offers insights into the ethical use of AI technologies and guidance on navigating legal requirements and ensuring responsible and compliant practices This book caters to industry professionals from diverse backgrounds including engineering data science computer science law enforcement and legal experts fostering a holistic understanding of the subject along with providing practical insights and real world examples Digitalization and Artificial Intelligence in Courts ,2025-09-25 In an era of rapid technological advancement justice systems around the world stand at the threshold of a profound transformation Digitalization and artificial intelligence offer unprecedented opportunities to enhance efficiency broaden access to legal remedies and bring courts closer to citizens Yet as judicial processes become increasingly digitalized and automated critical questions arise how can we ensure transparency fairness and accountability in online dispute resolution ODR and AI driven systems What protections must be in place to preserve privacy uphold fundamental rights and ensure that technology serves rather than undermines the core principles of justice Positioned at the intersection between technology and justice Digitalization and Artificial Intelligence in Courts Opportunities and Challenges explores these questions The first part of the volume considers strategies for bridging the digital divide explores the potential for process pluralism outlines data protection requirements and emphasizes the necessity of robust cybersecurity frameworks It also tackles one of the most pressing concerns of the digital era fostering trust and legal certainty in a virtual justice system The second part presents a comparative analysis of selected groundbreaking national and

cross border court digitalization initiatives from England and the United States to China Pakistan and the European Union The final part examines the role of AI in courts offering a critical reflection on its promises and perils from algorithmic bias to the controversial concept of AI judges Through a rigorous and balanced analysis the authors map the opportunities and challenges of an increasingly digitalized legal landscape Essential for legal professionals policymakers and scholars Digitalization and Artificial Intelligence in Courts serves as a fundamental guide to navigating the future of justice systems and technology in the twenty first century Includes a foreword by Lord Briggs of Westbourne Justice of the Supreme Court of the United Kingdom **Harnessing AI's Potential to Support Student Success and Teaching Excellence** Araujo, Juan J.,Snider, Sharla,2025-07-15

With the integration of AI in educational environments AI has shaped the way schools operate and support students Personalized learning platforms and tutoring systems have transformed the traditional schooling system for the better However the deployment of AI in school settings also raises critical questions around equity privacy ethical use and the role of educators in a technology enhanced landscape Examining the impact of AI usage in schools is essential to understand both its potential to enhance educational outcomes and the challenges that must be addressed to ensure it serves all learners effectively and responsibly **Harnessing AI s Potential to Support Student Success and Teaching Excellence** explores the landscape of AI in education and how it has helped and hindered school settings This book highlights both the transformative potential of AI and the risks associated with its unchecked advancement emphasizing the importance of responsible innovation in education Covering topics such as education AI and technology this book is an excellent resource for teachers administrators and policymakers searching for the right approach for such AI implementation Artificial Intelligence in Urban Planning and Design Imdat As,Prithwish Basu,Pratap Talwar,2022-05-14 Artificial Intelligence in Urban Planning and Design Technologies Implementation and Impacts is the most comprehensive resource available on the state of Artificial Intelligence AI as it relates to smart city planning and urban design The book explains nascent applications of AI technologies in urban design and city planning providing a thorough overview of AI based solutions It offers a framework for discussion of theoretical foundations of AI AI applications in the urban design AI based research and information systems and AI based generative design systems The concept of AI generates unprecedented city planning solutions without defined rules in advance a development raising important questions issues for urban design and city planning This book articulates current theoretical and practical methods offering critical views on tools and techniques and suggests future directions for the meaningful use of AI technology Includes a cutting edge catalogue of AI tools applied to smart city design and planning Provides case studies from around the globe at various scales Includes diagrams and graphics for course instruction

Exploring the Intersection of Artificial Intelligence and Journalism Santosh Kumar Biswal,Anand J. Kulkarni,2024-02-02 This book studies the role of Artificial Intelligence AI in journalism It traces the origin growth and development of the media and communication industry in the globalized world and discusses the implications of technologies such as Augmented

Reality Virtual Reality and Extended Reality which have helped foster a communication revolution across the globe The volume discusses technology centric media theories in the context of AI and examines if AI has been a boon or bane for data journalism It also looks at artificial intelligence in beat reporting and citizen journalism and analyses the social cultural implications of artificial intelligence driven journalism and the ethical concerns arising from it An important contribution this book will be indispensable for students and researchers of media studies communication studies journalism social media technology studies and digital humanities It will also be useful for media professionals

Artificial Intelligence in Optimal Design and Manufacturing Zuomin Dong,1994 Focuses on the application of AI to typical design planning and manufacturing problems with an emphasis on its combination with numerical optimization and geometric modelling in Computer Aided Design

AI Trends ,1993

The Impact of Artificial Intelligence on Workforce Management within the Banking and Finance Industry Sofia Papadopoulou,2021-05-18 Master s Thesis from the year 2020 in the subject Business economics Banking Stock Exchanges Insurance Accounting grade 1 6 University of applied sciences Frankfurt a M language English abstract The purpose and objective of this thesis is to examine the degree of impact WFM is facing due to implementation of AI based tools within the banking and finance industry To do this the author will select and classify under the chapter Literature Review how in which departments and to what degree banks and other financial institutions have implemented AI tools within their organization Secondly the author will conduct interviews with executive leaders as well as with AI researchers and experts and analyze the data received For this study the author focuses on AI s impact on WFM within the banking and finance industry The purpose of the following questions is to refine the present knowledge gap within the banking and finance industry regarding the WFM impact of AI The author will emphasize via a literature review and interviews exactly how AI based technology tools have been implemented in the banking and finance industry To do so three research questions have been chosen and will be further analyzed throughout this study paper The first question focuses on WFM and HR teams It predicts how many people and what kind of qualifications will be deployed As well as where and when they will be deployed There are many consequences of banks and other financial institutions implementing more AI technology In his book Competing in the Age of AI Iansiti and Lakhani mention that it is critical for leaders to understand the choice of model along with navigating the ethics of digital scale The author emphasizes that leaders must be able to build a strong organization of safety security and sustainability Firms spend billions of dollars on new AI related technologies and innovations Despite this banks and other financial institutions face three main issues The first challenge is an outdated operating model The second challenge is the lack of a fitting talent strategy Both challenges are interconnected to each other Likewise as a third challenge Workforce Management WFM the core process that boosts performance levels and competency for an organization has been reformed and disrupted by the introduction of AI

Perspectives in Artificial Intelligence: Machine translation, NLP, databases and computer-aided instruction J. A. Campbell,J. Cuena,1989
