Mathematics for the Elementary School: Number line, grade I, 1963 *Exploring Mathematics Through Literature* Diane Thiessen, 2004 This collection of articles and lessons provides classroom examples of how to use children's literature to teach mathematics effectively in prekindergarten through eighth grade. The articles focus on five content strands: number and operations, algebra, geometry, measurement and data analysis, and probability, and describe how the different authors have used specific books to help their students learn mathematics. Most of the articles involve communication, problem solving, representation, and reasoning, and some of them address connections. Helpful teacher notes indicate the grade range, topic, literature selection featured in the lesson materials, needed discussion of the mathematics, and questions for students. Blackline masters of recording sheets are also included for most lessons.

Families with Power Mary Cowhey, 2022 What if that's the question that began Families with Power? Familia's con Poder, a grass roots organization of low-income students and caregivers in Northampton, MA, in 2007. What if the families of students most impacted by the opportunity gap somehow had the power to organize whatever activities they felt would best help their children succeed? Mary Cowhey, a teacher who co-founded FWP, shares these stories and the voices of her fellow FWP organizers through vignettes and interviews, weaving in the lessons learned along the way. Inspired by Paulo Freire's popular education and the radical tradition of the Highlander Folk School, some Latina and African mothers, a great grandmother, and a couple of teachers founded Families with Power. FWP Organizing Family Reading Parties in each other's living rooms instead of meetings at school to recruit additional families and identify potential leaders. FWP created a Highlander-style residential retreat that employed Freirean culture circles to pose problems and design programs to address them. Readers will get an inside look at the benefits, successes, and challenges of more than a dozen years of student and family engagement in the community and school, tackling issues from academics, race, and class to immigration and public health.

Differentiated Instruction Deborah Blaz, 2016-02-19 In this new edition of a bestseller, author Deborah Blaz helps you differentiate lessons for your world language students based on their learning styles, interests, prior knowledge, and comfort zones. This practical book uses brain-based teaching strategies to help students of all ability levels thrive in a rigorous differentiated learning environment. Each chapter provides classroom-tested activities and tiered lesson plans to help you teach vocabulary, speaking, listening, reading, and writing in world language classes in ways that are interactive, engaging, and effective for all learners. Features new to this edition include sample thematic units to make your lessons more authentic and immersive. New strategies for using technology to differentiate world language instruction. Additional checklists, rubrics, and feedback forms to help you organize your lesson plans and track students' progress. New connections to the Common Core State Standards, the ACTFL Standards, Webb's Depth of Knowledge, and Bloom's Taxonomy. You'll also learn how to differentiate assessment effectively to help all students show their full potential. Classroom-ready tools and templates can be downloaded as free
