Encyclopedia of Associations ,2006-12 Knowledge Triumphant Franz Rosenthal,2007 In Knowledge Triumphant Franz Rosenthal observes that the Islamic civilization is one that is essentially characterized by knowledge ilm for ilm is one of those concepts that have dominated Islam and given Muslim civilization its distinctive shape and complexion There is no branch of Muslim intellectual and daily life that remained untouched by the all pervasive attitude towards knowledge as something of supreme value for Muslim being With a new foreword by Dimitri Gutas Coral Ridge Presbyterian Church Communicator ,2007 **Miracles and Wonders in the Middle Ages and Early Modern Period** Albrecht

Classen,2025-10-20 Despite the assumption that we live today in a rather rationalist and mechanized world there remain many aspects that neither medicine nor physics can fully explain The Catholic Church continues to pronounce individuals as saints because scientifically confirmed miracles are associated with them If we want to gain a solid understanding of the pre modern history of mentality emotions and everyday culture it proves to be highly revealing to examine what miracles and wonders had meant at that time both in the theological and medical field in the visual arts and literature As a matter of fact people both in the East and in the West have consistently flocked to pilgrimage sites all over the world in the hope that a miracle might happen and solve issues for them The contributors to this volume based on a symposium at the University of Arizona May 2024 approach this critically important topic from many different perspectives taking us from the early Middle Ages to the early modern age examining hagiographical medical literary and alchemical texts discussing both miracles and wonders as relevant themes in the public discourses Both the passage through Inferno and Purgatorio as the crucial pathway toward Paradiso and the experience of women s miraculous conception are identified as deeply impactful for the pre modern

world and this both in Christian and Muslim cultures Studying miracles and wonders through a kaleidoscope of different materials and concepts makes it possible to gain a closer understanding of people's mindsets power structures and the debate between medicine and religion These topics were also greatly important in other cultures as several papers on Arabic medieval literature indicate Further pursuing this global issue we recognize easily that the separation line between the Middle Ages and the early modern period is only a modern construct and often not that helpful because the discourse on miracles and wonders has continued and influences even us today
