## **Setting Municipal Priorities 1981:**

**Community Power in a Postreform City** Eugene B. Rumer, Dmitrii Trenin, Huasheng Zhao, 2007 The eminent contributors to this volume offer a four part analysis of Central Asia's new importance in world affairs since the disintegration of the Soviet Union

**Setting Municipal Priorities**, 1985 **Community Power in a Postreform City** Robert F. Pecorella, 2019-07-26 This book represents the culmination of several years of research on community politics in New York City

**Setting Municipal Priorities, 1981** Brecher Charles, Raymond D. Horton, 1980 **Power, Culture and Place** John H. Mollenkopf, 1989-02-16 With a population and budget exceeding that of many nations a central position in the world's cultural and corporate networks and enormous concentrations of wealth and poverty New York City intensifies interactions among social forces that elsewhere may be hidden or safely separated The essays in *Power Culture and Place* represent the first comprehensive program of research on this city in a quarter century Focusing on three historical transformations the mercantile industrial and postindustrial several contributors explore economic growth and change and the social conflicts that accompanied them Other papers suggest how popular culture public space and street life served as sources of order amidst conflict and disorder Essays on politics and pluralism offer further reflections on how social tensions are harnessed in the framework of political participation By examining the intersection of economics culture and politics in a shared spatial context these multidisciplinary essays not only illuminate the City's fascinating and complex development but also highlight the significance of a sense of place for social research It has been said that cities gave birth to the social sciences exemplifying and propagating dramatic social changes and proving ideal laboratories for the study of social patterns and their evolution As John Mollenkopf and his colleagues argue New York City remains the quintessential case in point

**Setting Municipal Priorities, 1986** Charles Brecher, Raymond D. Horton, 1985 **New York, New York, New York** Thomas Dyja, 2021-03-16 A New York Times Notable Book A lively immersive history by an award winning urbanist of New York City's transformation and the lessons it offers for the city's future Dangerous filthy and falling apart garbage piled on its streets and entire neighborhoods reduced to rubble New York's terrifying if liberating state of nature in 1978 also made it the capital of American culture Over the next thirty plus years though it became a different place kinder and meaner richer and poorer more like America and less like what it had always been New York New York New York Thomas Dyja's sweeping account of this metamorphosis shows it wasn't the work of a single policy mastermind or economic theory nor was it a morality tale of gentrification or crime Instead three New Yorks evolved in turn After brutal retrenchment came the dazzling Koch Renaissance and the Dinkins years that left the city's liberal traditions battered but laid the foundation for the safe streets and dotcom excess of Giuliani's Reformation in the 90s Then the planes hit on 9/11 The shaky city handed itself over to Bloomberg who merged City Hall into his personal empire launching its Reimagination From Hip Hop crews to Wall Street bankers D V to Jay Z Dyja weaves New Yorkers famous infamous and unknown Yuppies hipsters tech nerds and artists

community organizers and the immigrants who made this a truly global place into a narrative of a city creating ways of life that would ultimately change cities everywhere With great success though came grave mistakes The urbanism that reclaimed public space became a means of control the police who made streets safe became an occupying army technology went from a means to the end Now as anxiety fills New Yorker s hearts and empties its public spaces it s clear that what brought the city back proximity density and human exchange are what sent Covid 19 burning through its streets and the price of order has come due A fourth evolution is happening and we must understand that the greatest challenge ahead is the one New York failed in the first three The cures must not be worse than the disease Exhaustively researched passionately told New York New York New York is a colorful inspiring guide to not just rebuilding but reimagining a great city *The Politics of Urban Development* Clarence Nathan Stone, Heywood T. Sanders, 1987 In the past twenty years the study of urban politics has shifted from a predominant concern with political culture and ethos to a preoccupation with political economy particularly that of urban development Urban scholars have come to recognize that cities are shaped by forces beyond their boundaries From that focus have emerged the views that cities are clearly engaged in economic competition that market processes are shaped by national policy decisions sometimes intentionally and sometimes inadvertently and that the costs and benefits of economic growth are unevenly distributed But what else needs to be said about the policies and politics of urban development To supplement prevailing theories *The Politics of Urban Development* argues that the role of local actors in making development decisions merits closer study Whatever the structural constraints politics still matters Collectively the essays provide ample evidence that local government officials and other community actors do not simply follow the imperatives that derive from the national political economy they are able to assert a significant degree of influence over the shared destiny of an urban population The impact of the collection is to heighten awareness of local political practices and of how and why they make a difference **Public Administration Review** Leonard Dupee White, 1985 Includes section Reviews of books and documents Setting Municipal Priorities, 1981 Charles Brecher, Raymond D. Horton, 1980 Towards a Theory of Budgeting Rebecca Martin Hendrick, 1986 *New York Court of Appeals. Records and Briefs.* New York (State)., *City Almanac*, 1983 *Perspectives on Budgeting* Allen Schick, 1987 From Welfare State to Real Estate Kim Moody, 2007 Prominent labour activist Kim Moody examines the ever growing reach of New York s developmental bulldozer Arguing that the city s business elite has tilted the political structure towards an agenda that puts real estate development before human need Moody offers the first historical narrative of the key turning points of this process The book is a serious warning to working class people everywhere Moody has spent over 30 years in the field co founding union newspaper Labor Notes in 1979 and teaching labour studies and politics at universities in the US and UK Atop the Urban Hierarchy Robert A. Beauregard, 1989-03-27 This volume contains a wealth of information and insights on contemporary patterns of urban economic growth and spatial transformations CONTEMPORARY SOCIOLOGY Monographic Series
