Rails South West From Birmingham in the Late 20th Century, 1972-2000 Peter J Green, 2024-12-30 Towards the end of the twentieth century take a photographic journey along the railway lines to the southwest and south of Birmingham Starting at Birmingham's main stations New Street and Snow Hill in the centre of the city you can travel from the West Midlands through the urban industrial and rural landscapes of the counties of Gloucestershire Herefordshire Warwickshire and Worcestershire visiting the branch lines and the various heritage railways and railway centres along the way As well as the diesel locomotives and railcars that are illustrated in most of the photographs various steam hauled special trains are also included While the railway has gradually improved as a means of transport for the author it has become increasingly less interesting as it has been modernised Fortunately the spectacle of Peaks Class 50s and many other locomotives going about their daily business has been well recorded and many scenes are captured in these pages Much railway infrastructure still remained at this time and many older railway stations and mechanical signal boxes with their associated semaphore signalling are also featured adding to the interest of many of the photographs

Floreat Salopia Roger H. White, 2025-10-15 Celebrates the 100th publication of the Shropshire Archaeological and Historical Society showcasing new research on the county's history and archaeology Shropshire as one of the contributors to this volume notes is simultaneously remote and well connected which also means it is often but wrongly overlooked and underestimated This volume of collected papers newly commissioned and bringing entirely new research into play was brought together to

commemorate the issuing of the 100th volume of the Shropshire Archaeological and Historical Society's Transactions. It offers snapshots of Shropshire's past from the earliest prehistory to the end of the twentieth century. As befits the Society, it offers both archaeological and historic perspectives and demonstrates the importance of the county in the wider context of the United Kingdom. While not attempting to be comprehensive in its contents, it nonetheless offers insights into how the county came into being and the forces that shaped it, not the least of which is its extraordinarily diverse geology. The volume offers too a perspective of those historically researching Shropshire's past, often women who gained their foothold either through teaching or participating in adult education. This is certainly the first attempt to offer a comprehensive overview of Shropshire in over 50 years, and what it seeks to achieve in its scope has not been attempted before. The Society's aim is both to showcase the research going on in the county but also to parade its riches; there is much more to learn about Shropshire, and it is hoped this book will encourage others to take up its challenges and continue to allow the understanding of the county to flourish. The contributors to this volume almost all have long-standing connections to Shropshire, and some are also proud Salopians. Most are based in the county and continue their long-term research there, while one holds a significant role in the protection of Shropshire's heritage.
