Video Cultures D. Buckingham, R. Willett, 2009-10-09 Over the past decade there has been a huge increase in ordinary people's access to video production technology. These essays explore the theoretical significance of this trend and its impact on society as well as examining a wide range of case studies from camcorders and camera phones to YouTube and citizen journalism.

Screening American Independent Film Justin Wyatt, W.D. Phillips, 2023-05-31 This indispensable collection offers 51 chapters each focused on a distinct American independent film. *Screening American Independent Film* presents these films chronologically, addressing works from across more than a century (1915-2020), emphasizing the breadth and long duration of American independent cinema. The collection includes canonical examples as well as films that push against and expand the definitions of independence. The titles run from micro-budget films through marketing-friendly IndieWood projects from auteur-driven films and festival darlings to B-movie genre pics and exploitation films. The chapters also introduce students to different approaches within film studies, including historical and contextual framing, industrial and institutional analysis, politics and ideology, genre and authorship, representation, film analysis, exhibition and reception, and technology. Written by leading international scholars and emerging talents in film studies, this volume is the first of its kind. Paying particular attention to issues of diversity and inclusion for both the participating scholars and the content and themes within the selected films, *Screening American Independent Film* is an essential resource for anyone teaching or studying American cinema.

Inherent Vice Lucas Hilderbrand, 2009-05-28 This eye-opening exploration of the aesthetic and legal innovations of home video revisits four decades of frequently overlooked histories of video recording.

The Fight for Privacy Danielle Keats Citron, 2022-10-06 Devastating and urgent, this book could not be more timely. Caroline Criado Perez, award-winning and bestselling author of *Invisible Women*. Danielle Citron takes the conversation about technology and privacy out of the boardrooms and op-eds to reach readers where we are: in our bathrooms and bedrooms, with our families and our lovers. In all the parts of our lives we assume are untouchable, she shows us that privacy, as we think we know it, is largely already gone. The boundary that once protected our intimate lives from outside interests is an artefact of the twentieth century. In the twenty-first, we have embraced a vast array of technology that enables constant access and surveillance of the most private aspects of our lives. From non-consensual pornography to online extortion to the sale of our data for profit, we are vulnerable to abuse, and our laws have failed miserably to keep up. With vivid examples drawn from interviews with victims, activists, and lawmakers from around the world, *The Fight for Privacy* reveals the threat we face and argues urgently and forcefully for a reassessment of privacy as a human right. As a legal scholar and expert, Danielle Citron is the perfect person to show us the way to a happier, better-protected future.
