The NCAA and the Exploitation of College Profit-Athletes Richard M. Southall, Mark S. Nagel, Ellen J. Staurowsky, Richard T. Karcher, Joel G. Maxcy, 2023-05-04 A well constructed and reasoned debunking of the mythology of amateurism in for profit NCAA athletics For the last 60 plus years as the revenue generating capacity of Power Five football and men's basketball has dramatically increased NCAA Division I Power Five football and men's basketball players college profit athletes have been economically exploited their labor has been severely restricted To mask this inequity the NCAA and its members created disseminated and embedded a fictitious collegiate model of athletics established and repeatedly modified for the benefit of member schools designed to ensure profit athletes were denied employment status and just compensation for their athletic labor *The NCAA and the Exploitation of College Profit Athletes* An

Amateurism That Never Was provides a comprehensive historical sociological legal financial and managerial argument for the reclassification of profit athletes as employees Such a reclassification would permit profit athletes to gain not only fair financial compensation but also equal access to educational benefits that have been promised but systematically denied The authors trace how Power Five college sports have morphed into a hyper professionalized and commercialized sport business enterprise They provide evidence that at least since 1956 the NCAA s amateurism has been a collusive exploitative and racialized pay for play scheme that disproportionately affects Black profit athletes The authors cut through the institutional doublespeak of approved benefits cost of attendance stipends or name image likeness NIL collectives to lay bare the immorality of Power Five college sports The NCAA and the Exploitation of College Profit Athletes makes the case that profit athletes and their representatives must have the right to unionize and freely negotiate a collective bargaining agreement with management e g NCAA Power Five conferences and athletic departments In addition this book offers a forward thinking structure in which individual labor contracts or a potential collective bargaining agreement address profit athlete compensation and working conditions *Johan Santana* Jeffrey Zuehlke,2006-12-01 Looks at the life and career of the Cy Young Award winner from the Minnesota Twins

Boehme,2016-02-17

Artists and filmmakers in the early twentieth century reshaped our vision of the American West. In particular the Taos Society of Artists and the California based artist Maynard Dixon departed from the legendary depiction of the Wild West and fostered new images or brands for western art. This volume illustrated with more than 150 images examines select paintings and films to demonstrate how these artists both enhanced and contradicted earlier representations of the West. Prior to this period American art tended to portray the West as a wild frontier with untamed lands and peoples. Renowned artists such as Henry Farny and Frederic Remington set their work in the past invoking an environment immersed in conflict and violence. This trademark perspective began to change however when artists enamored with the Southwest stamped a new imprint on their paintings. The contributors to this volume illuminate the complex ways in which early twentieth century artists as well as filmmakers evoked a southwestern environment not just suspended in time but also permanent rather than transient. Yet as the authors also reveal these artists were not entirely immune to the siren call of the vanishing West and their portrayal of peaceful yet exotic Native Americans was an expansion rather than a dismissal of earlier tropes. Both brands cast a romantic spell on the West and both have been seared into public consciousness. *Branding the American West* is published in association with the Brigham Young University Museum of Art Provo Utah and the Stark Museum of Art Orange Texas.

Baseball America 2006 Almanac Baseball America (Firm), 2006. The 2005 season was one to remember at all levels of baseball. And no book offers you a more complete recap of the season than BA's annual Almanac now in its 24th year. All the stories, all the stats from the major leagues to the minor leagues to college and high school ranks, no one covers the game more thoroughly than Baseball America. On the Sidelines Guy Harrison, 2021-08 2022 Outstanding Book Award in the Communication and Sport Division from the National Communication Association. When sports fans turn on the television or radio today they undoubtedly find more women on the air than ever before. Nevertheless women sportscasters are still subjected to gendered and racialized mistreatment in the workplace and online and are largely confined to anchor and sideline reporter positions in coverage of high profile men's sports. In *On the Sidelines* Guy Harrison weaves in depth interviews with women sportscasters, focus groups with sports fans and a collection of media products to argue that gendered neoliberalism, a cluster of exclusionary twenty first century feminisms, maintains this status quo. Spinning a cohesive narrative, Harrison shows how sportscasting's dependence on gendered neoliberalism broadly places the onus on women for their own success despite systemic sexism and racism. As a result, women in the industry are left to their own devices to navigate double standards, bias in hiring and development for certain on air positions, harassment and emotional labor. Through the lens of gendered neoliberalism *On the Sidelines* examines each of these challenges and analyzes how they have been reshaped and maintained to construct a narrow portrait of the ideal neoliberal female sportscaster. Consequently these challenges are taken for granted as natural, sustaining women's marginalization in the sportscasting industry. New York Magazine, 1980-10-13.
