Yetman, 1991 A collection of 27 readings for advanced undergraduate and graduate students based on the assumption that the study of racial and ethnic relations should focus primarily on patterns of differential power and intergroup conflict Many articles demonstrate that racial and ethnic relations cannot be understood apart from a transnational perspective and all explore aspects of race and ethnicity in the US and address broader conceptual issues Most selections are presented in their entirety with introductions No index Annotation copyrighted by Book News Inc Portland OR Handbook of Strategic Management Jack Rabin, Gerald Miller, W. Regenerating the Cities Michael Parkinson, Bernard Foley, Dennis R. Judd, 1989 *From Welfare State to Real Estate* Kim Moody, 2007 Prominent labour activist Kim Moody examines the ever growing reach of New York's developmental bulldozer Arguing that the city's business elite has tilted the political structure towards an agenda that puts real estate development before human need Moody offers the first historical narrative of the key turning points of this process The book is a serious warning to working class people everywhere Moody has spent over 30 years in the field co founding union newspaper Labor Notes in 1979 and teaching labour studies and politics at universities in the US and UK *The Politics of Urban Development* Clarence Nathan Stone, Heywood T. Sanders, 1987 In the past twenty years the study of urban politics has shifted from a predominant concern with political culture and ethos to a preoccupation with political economy particularly that of urban development Urban scholars have come to recognize that cities are shaped by forces beyond their boundaries From that focus have emerged the views that cities are clearly engaged in economic competition that market processes are shaped by national policy decisions sometimes intentionally and sometimes inadvertently and that the costs and benefits of economic growth are unevenly distributed But what else needs to be said about the policies and politics of urban development To supplement prevailing theories The Politics of Urban Development argues that the role of local actors in making development decisions merits closer study Whatever the structural constraints politics still matters Collectively the essays provide ample evidence that local government officials and other community actors do not simply follow the imperatives that derive from the national political economy they are able to assert a significant degree of influence over the shared destiny of an urban population The impact of the collection is to heighten awareness of local political practices and of how and why they make a difference **Law Books in Print: Subjects** Nicholas Triffin, 1987 *The Making of America's Homeless* Kim Hopper, Jill Hamberg, 1984 **Annual Report** University of Illinois at Urbana-Champaign.
