Siberian Journey Down The Amur To The P:

Siberian Journey: Down the Amur to the Pacific, 1856-57 Perry McDonough Collins,1962 *The Development of Siberia* R A French,Alan Wood,1990-01-12 **Between Heaven and Hell** G. Diment,Y. Slezkine,2016-04-30 Siberia has no history of independent political existence no claim to a separate ethnic identity and no clear borders Yet it could be said that the elusive country behind the Urals is the most real and the most durable part of the Russian landscape For centuries Siberia has been represented as Russia's alter ego as the heavenly or infernal antithesis to the perceived complexity or shallowness of Russian life It has been both the frightening heart of darkness and a fabulous land of plenty the House of the Dead and the realm of utter freedom a frozen wasteland and a colourful frontier a dumping ground for Russia's rejects and the last refuge of its lost innocence The contributors to *Between Heaven and Hell* examine the origin nature and implications of these images from historical literary geographical anthropological and linguistic perspectives They create a striking fascinating picture of this enormous and mysterious land **Feeding the Russian Fur Trade** James R. Gibson,2011-11-18 James R Gibson offers a detailed study that is both an account of this chapter of Russian history and a full examination of the changing geography of the Okhotsk Seaboard and the Kamchatka Peninsula over the course of two centuries *Beyond the Amur* Victor Zatsnepine,2017-03-09 *Beyond the Amur* describes the distinctive frontier society that emerged in the Amur a river region that shifted between Qing China and Imperial Russia as the two empires competed for resources Official histories depict the Amur as a distant battleground caught between rival empires Zatsnepine by contrast views it as a unified natural economy populated by Chinese Russian Indigenous Japanese Korean Manchu and Mongol people who crossed the border in search of work or trade and who came together to survive a harsh physical environment This colourful account of a region and its people highlights the often overlooked influence of frontier developments on state politics and imperial policies and histories *Studies in Russian-American Commerce 1820-1860* Walther Kirchner,2023-11-27 *Siberian Journey: Down the Amur to the Pacific, 1856-1857 : a New Edition of a Voyage Down the Amoor* Vevier, Charles,Perry McDonough Collins,1962 *Constructing Industrial Pasts* Stefan Berger,2019-09-01 Since the 1960s nations across the developed world have been profoundly shaped by deindustrialization In regions in which previously dominant industries faced crises or have disappeared altogether industrial heritage offers a fascinating window into the phenomenon's cultural dimensions As the contributions to this volume demonstrate even as forms of industrial heritage provide anchors of identity for local populations their meanings remain deeply contested as both radical and conservative varieties of nostalgia intermingle with critical approaches and straightforward apologies for a past that was often full of pain exploitation and struggle **To Wire the World** John B. Dwyer,2001 In the 1850s American entrepreneur Perry M Collins envisioned a world connected by an overland telegraph line Western Union shared his vision and with Russia and England willing to be partners in the venture it seemed possible to complete the massive undertaking This is the story of how Collins helped to deploy a telegraph army to

British Columbia modern day Alaska and Siberia Supported by a telegraph navy these men surveyed explored and operated in dangerous sometimes even life threatening environments to build the line from 1865 to 1867 only to have their attempts made obsolete by completion of the Atlantic cable in 1866 Dwyer examines the geopolitical context notions of manifest destiny and the spirit of entrepreneurial adventure that motivated telegraph army commander Col Charles S Burkley and his men This story focuses on firsthand accounts by expedition participants and excerpts from ship s log to fill this important gap in the history of communication These men braved possible starvation and risked their lives in an ultimately futile attempt to make their vision a reality

Imperial Visions Mark Bassin,1999-06-24 In the middle of the nineteenth century the Russian empire made a dramatic advance on the Pacific by annexing the vast regions of the Amur and Ussuri rivers Although this remote realm was a virtual terra incognita for the Russian educated public the acquisition of an Asian Mississippi attracted great attention nonetheless even stirring the dreams of Russia s most outstanding visionaries Within a decade of its acquisition however the dreams were gone and the Amur region largely abandoned and forgotten In an innovative examination of Russia s perceptions of the new territories in the Far East Mark Bassin sets the Amur enigma squarely in the context of the Zeitgeist in Russia at the time *Imperial Visions* demonstrates the fundamental importance of geographical imagination in the mentalit of imperial Russia This 1999 work offers a truly novel perspective on the complex and ambivalent ideological relationship between Russian nationalism geographical identity and imperial expansion
