**Clean(ish)** Gin Stephens, 2022-01-04 Clean ish leads readers to a focus on real foods and a healthier home environment free of obvious toxins without fixating on perfection By living clean ish our bodies' natural processes become streamlined and more effective while we enjoy a vibrant life In Gin Stephens's New York Times bestseller *Fast Feast Repeat* she showed you how to fast completely clean as part of an intermittent fasting lifestyle Now whether you're an intermittent faster or not Gin shows you how to become clean ish where it counts you'll learn how to shift your choices so you're not burdening your body with a bucket of chemicals additives and obesogens it wasn't designed to handle Instead of aiming for perfection which is impossible or changing everything at once which is hard and rarely leads to lasting results you'll cut through the confusion lose the fear and embrace the freedom that comes from becoming clean ish As you learn how to lower your toxic load through small changes smart swaps and simple solutions you'll evolve simply and naturally toward a clean ish lifestyle that works for your body and your life

**Inner Sense** Caroline Williams, 2025-10-07 A fascinating look at the power of the body to influence our mind and even affect how we see the world Janice Kaplan New York Times bestselling author of *The Gratitude Diaries* and *What Your Body Knows About Happiness* Discover your elusive sixth sense your brain's ability to perceive and interpret bodily sensations like hunger and thirst and how to rewire your mind-body connection for optimal health Are you able to recognize your own heartbeat What about thirst In *Inner Sense* science communicator Caroline Williams explains that some people are so insensitive to internal cues that they struggle to recognize basic needs like hunger or fatigue While others only notice their body's signals when they become overwhelming This disconnect between the brain's predictions and the body's sensations can lead to mental and physical health challenges from chronic fatigue to anxiety to eating disorders If this sounds like you don't worry It's not too late to tap into your interoceptive awareness In this practical science-backed book you will learn How to harness one of the most important functions of your

body its sixth sense known to scientists as interoception How the mind body connection is a two way street with the brain and body in a constant flow of communication How to perceive and interpret physical processes like heartbeat and breath How to pick up on and respond to physical cues like hunger and thirst How to identify emotions that express themselves physically such as panic or rage How pain works in your body and in your brain How internal sensations influence your thoughts and actions and how to learn and harness interoceptive awareness Inner Sense delves into the fascinating field of interoception speaking with doctors scientists and researchers about how our internal sensations influence our thoughts and actions and how we can harness interoceptive awareness to improve health relationships and society as a whole Williams explores cutting edge interventions like mindfulness biofeedback targeted exercise and even psychedelic therapy which hold the potential to help us regulate emotions reduce stress and live better lives

**Ultra-Processed Foods and Human and Planetary Health** Gustavo Cediel, Fernanda Rauber, Raquel Mendonça, Adriana Meireles, Maria Alvim Leite, Maria Gombi-Vaca, 2023-10-27 The NOVA system is a food classification system based on the degree and purpose of industrial food processing NOVA which introduced ultra processed as a food category has been widely employed within the research community and is increasingly used by national governments international organisations and civil society Ultra processed foods UPF are defined as formulations of food derived substances e g fats sugars starch protein isolate that contain little if any whole food and include classes of additives whose function is to make the final product palatable or more appealing cosmetic additives like colours flavours and emulsifiers The impact of the production and consumption of ultra processed foods on human and planetary health has been acknowledged and has started to gather global attention more recently Because UPFs have become dominant components in diets of populations worldwide there is an urgent need to scrutinise the human health sustainability and food environment impacts across a range of populations and country contexts and to understand the implications of their consumption for health inequalities
