**Bring Your Human to Work: 10 Surefire Ways to Design a Workplace That Is Good for People, Great for Business, and Just Might Change the World** Erica Keswin, 2018-09-28 WALL STREET JOURNAL BESTSELLER

The secret to business success: Get REAL and be HUMAN. As human beings, we are built to connect and form relationships. So it should be no surprise that relationships must also translate into the workplace where we spend most of our time.

Companies that recognize this will retain the most productive, creative, and loyal employees and invariably seize the competitive edge. The most successful leaders are those who actively form quality relationships with their employees who honor fundamental human qualities: authenticity, openness, and basic politeness, and apply them day in and day out. Paying attention and genuinely caring about the effects people have on one another is key to developing a winning culture where people perform at the top of their game and want to work. As a workplace strategist and business coach, Erica Keswin has spent over 20 years working with top business leaders and executives to build successful organizations that honor relationships. Featuring case studies from top brands such as Lyft, Starbucks, Mogul, and SoulCycle to name a few, *Bring Your Human to Work* distills the key practices of the most human companies into applicable advice that any business leader can use to build a human workplace. These building blocks include: Understanding your company's role in the world beyond financial profit; Encouraging employees to be healthy in body and spirit; Running your meetings with clear purpose; Making space for face-to-face interaction; Building professional development into company culture; Inspiring your workforce to give back to the community; Simply saying thank you. A human company is real, genuine, aligned, and true to itself. A real company flaunts its humanity instead of hiding it. It's what the most successful sustainable companies are doing today, and there's no reason yours can't be the same. Keswin's leadership lessons foster fairness, devotion, and joy in the workplace, all critical elements of a successful business. By bringing your human to work, you can design a workplace that is good for people, great for business, and just might change the world.

Wasting Time on the Internet Kenneth Goldsmith, 2016-08-23 Using clear, readable prose, conceptual artist and poet Kenneth Goldsmith's manifesto shows how our time on the internet is not really wasted but is quite productive and creative as he puts the experience in its proper theoretical and philosophical context. Kenneth Goldsmith wants you to rethink the internet. Many people feel guilty after spending hours watching cat videos or clicking link after link after link. But Goldsmith sees that wasted time differently. Unlike old media, the internet demands active engagement, and it's actually making us more social, more creative, even more productive. When Goldsmith, a renowned conceptual artist and poet, introduced a class at the University of Pennsylvania called *Wasting Time on the Internet*, he nearly broke the internet. *The New Yorker*, *The Atlantic*, *The Washington Post*, *Slate*, *Vice*, *Time*, *CNN*, *The Telegraph*, and many more ran articles expressing their shock, dismay, and ultimately their curiosity. Goldsmith's ideas struck a nerve because they are

brilliantly subversive and endlessly shareable In Wasting Time on the Internet Goldsmith expands upon his provocative insights contending that our digital lives are remaking human experience When we re wasting time we re actually creating a culture of collaboration We re reading and writing more and quite differently And we re turning concepts of authority and authenticity upside down The internet puts us in a state between deep focus and subconscious flow a state that Goldsmith argues is ideal for creativity Where that creativity takes us will be one of the stories of the twenty first century Wide ranging counterintuitive engrossing unpredictable like the internet itself Wasting Time on the Internet is the manifesto you didn t know you needed **Energy and Technology Review** ,1993 **Mastering Your Inner Critic and 7 Other High**
