**Dynamics of Neo-Latin and the Vernacular**, 2014-09-18 Dynamics of Neo Latin and the Vernacular offers a collection of studies that deal with the cultural exchange between Neo Latin and the vernacular and with the very cultural mobility that allowed for the successful development of Renaissance bilingual culture Studying a variety of multilingual issues of language and poetics of translation and transfer its authors interpret Renaissance cross cultural contact as a radically dynamic ever shifting process of making cultural meaning With renewed attention for suitable theoretical and methodological frames of reference Dynamics of Neo Latin and the Vernacular firmly resists literary history's temptation to pin down the Early Modern relationship between languages literatures and cultures in favour of stressing the sheer variety and variability of that
