Sexual Customs In Rural Norway:

Sexual Customs in Rural Norway Eilert Lund Sundt, 1993 Eilert Sundt 1817-1875 a Lutheran minister and extraordinary self-taught sociologist spent twenty years trekking across his country to study social conditions in nineteenth century Norway. His work took him to growing cities, small farms and rural villages where he questioned both the wealthy and the working classes about their lives. He published eleven volumes of his empirical research findings on such wide-ranging subjects as marriage, Gypsy life, alcoholism, mortality and in volume 4 the work translated here illegitimacy. Sundt was one of the world's first field workers in social studies and one of the first to use the social survey as a tool of investigation. To gather data to support his observations he sent detailed questionnaires to Lutheran pastors. He relied also on church records and the census for statistical information. His work had a degree of methodological sophistication unrivaled in its day and his studies are still considered classics by sociologists. His purpose, as he stated repeatedly, was social reform that statesmen and legislators should make use of this knowledge in their struggle to govern and administer for the good of all. He saw his work as a small contribution to enlightenment into conditions today that can lead to better insight tomorrow. Until now this volume of Sundt's truly remarkable work has not been available in English. Students of sociology, cultural history and Scandinavian studies will find *Sexual Customs in Rural Norway* an important contribution to the body of literature on nineteenth century Norway and rural life in general as well as a pioneering example of descriptive sociological thought and practice. Marriage Choices and Class Boundaries Marco H. D. van Leeuwen, Ineke Maas, Andrew Miles, 2005. Endogamy: the custom forbidding marriage outside one's social class is central to social history. This study considers the factors determining who married whom, whether partner selection changed over the past three hundred years and regional differences between Europe and South America.

Desire Anna Clark, 2012-11-12. The rich range of historical information that Clark weaves into her chapters makes this ambitious overview of sex in Europe a highly accessible and successful endeavour. *Times Higher Education Supplement*. Provides a valuable overview of the history of sexuality in Europe since classical antiquity, synthesising as it does a mass of studies of specific regions and periods which have appeared during the last two decades. Lesley Hall, Wellcome Library, UK.

Desire A History of European Sexuality is a sweeping survey of sexuality in Europe from the Greeks to the present day It traces two concepts of sexual desire that have competed in European history desire as dangerous polluting and disorderly and desire as creative transcendent even revolutionary This book follows these changing attitudes toward sexuality through the major turning points of European history Written in a lively and engaging style the book contains many fascinating anecdotes drawing on a rich array of sources including poetry novels pornography and film as well as court records autobiographies and personal letters While Anna Clark builds on the work of dozens of historians she also takes a fresh approach and introduces the concepts of twilight moments and sexual economies Desire integrates the history of heterosexuality with same sex desire and focuses on the emotions of love as well as the passions of lust the politics of sex as well as the personal experiences

Intellectuals Sven Eliæson, Ragnvald Kalleberg, 2008 As public intellectuals academics formulate specialized knowledge to become understandable and relevant for people outside of the specialty There are two main forms of such intellectual activity dissemination and debating Scientific knowledge is a cultural value in its own right and also of importance in public discourse Due to the complexity of the challenges facing modern societies the intellectual role of individual academics and scholarly institutions is increasingly important with mass education and new media techniques expanding the public sphere It has become more important that specialists popularize also for specialists in other fields Challenges such as climate change or social integration requires knowledgeable citizens and broad public discourses integrating specialized knowledge from several disciplines Contemporary challenges in Western Europe Scandinavia and the US are discussed The historical perspectives are followed back to early Modernity The cases include contributions on Holberg the Myrdals and Boas There are contributions on the recent transformations of East of the Elbe and the challenges facing scholars in Turkey and India The main focus of the book is on social scientists but the issues discussed are of general interest for all kinds of academics and for people interested in the cultural and political relevance of science Aurland Heritage Chronicle, 1992
