*Menopause and Culture* Gabriella E. Berger, 1999 An extremely significant contribution to the field of medical sociology Menopause is an area which has been somewhat neglected in social science discourse Dr Megan Jennaway University of Queensland Original well argued at the cutting edge of the field of sociology and health Dr Mina Roces University of New South Wales In *Menopause and Culture* Gabriella Berger questions the view of menopause as an estrogen deficiency disease by examining how other vital influences such as culture mediate the menopause transition Her positive and refreshing approach culminates in a cross cultural examination of Australian and Filipino women s menopause experiences and concludes in an elegant demonstration of how intricate sociocultural belief systems impact on menopause Set against a broad

review of current and often contradictory literature in the fields of biomedicine psychiatry psychology anthropology and sociology her findings serve to demystify long held stereotypical and misogynist views of women as diseased and useless Menopause is unequivocally more about wellness than illness this is a book at the cutting edge of medical sociology
