Shades of Retribution Chandra Adams,2004 Just Culture Sidney Dekker,2018-09-07 A just culture is a culture of trust learning and accountability It is particularly important when an incident has occurred when something has gone wrong How do you respond to the people involved What do you do to minimize the negative impact and maximize learning This third edition of Sidney Dekker's extremely successful Just Culture offers new material on restorative justice and ideas about why your people may be breaking rules Supported by extensive case material you will learn about safety reporting and honest disclosure about retributive just culture and about the criminalization of human error Some suspect a just culture means letting people off the hook Yet they believe they need to remain able to hold people accountable for undesirable performance. In this new edition Dekker asks you to look at accountability in different ways One is by asking which rule was broken who did it whether that behavior crossed some line and what the appropriate consequences should be In this retributive sense an account is something you get people to pay or settle But who will draw that line And is the process fair Another way to approach accountability after an incident is to ask who was hurt To ask what their needs are And to explore whose obligation it is to meet those needs People involved in causing the incident may well want to participate in meeting those needs In this restorative sense an account is something you get people to tell and others to listen to Learn to look at accountability in different ways and your impact on restoring trust learning and a sense of humanity in your organization could be enormous

Kline, 2006-03-15 From the Author's Preface It could be this octogerian's last book and there were several things I wanted to do One was to provide a primer in covenant theology Another was to make more accessible the gist of some of my previous biblio theological studies and to do so in a form serviceable to a wider readership than most of my publications The major move in this democratic direction was to enliven the analysis of the covenants by introducing the series of covenant administrations within the intriguing story line of Har Magedon the mountain of God Extending as it does from creation to consummation the tale of Har Magedon readily accommodates the total history of the covenants Moreover quite apart from such considerations the current state of secularized and dispensational versions of Armageddon fantastic fiction all makes a review of the biblical Har Magedon motif timely Though the covenants remain the theological foundation and heart of the matter by its adoption as our narrative framework Har Magedon becomes the dominant surface theme As we track this theme through the Scriptures we discover a recurring pattern an eschatological megastructure that appears in each of the typological world ages culminating respectively at mounts Ararat and Sinai Zion and then once again climactically in the antitypical New Covenant age This Har Magedon paradigm which shapes our telling of the covenantal tale consists in the following complex of elements establishment of a kingdom covenant by the Lord of Har Magedon a meritorious accomplishment by the covenant

grantee triumphant in the Har Magedon conflict a common grace interim before the coming of the covenanted kingdom an antichrist crisis consummation of the Glory Kingdom through a last judgement victory of the covenant Lord in a final battle of Har Magedon If only in condensed digest fashion the present work is thus a comprehensive biblio theological survey of the kingdom of God from Eden to the New Jerusalem
