Shadow On The Land:

Shadow on the Land Wayne D. Overholser, 2014-01-02 Central Oregon the last frontier Transportation is still by stagecoach and freight wagon There is a movement afoot for a people s railroad paid for by the state to bring the benefits of rails to the area to make it easier to ship livestock and produce and to encourage settlement For years the competing railroad barons James J Hill and Edward H Harriman have done nothing toward building a line in central Oregon but now under the impetus of the people s railroad bill they both set out to do just that Lee Dawes a front man buying rights of way for the Hill interests is charged with besting Mike Quinn who is acquiring rights of way for the Harriman line Dawes and Quinn have competed in this kind of work for years as they have competed for women An essential property on the way to Bend is owned by Hanna Racine and both Dawes and Quinn want the right of way across her land The two vie to come up with a strategy to seduce her into committing to the interest they represent while an unknown third party is intent on frustrating them both through brutal violence

Persisting Pandemics Powel H. Kazanjian, 2024-11-15 Persisting Pandemics explores the history of syphilis and AIDS to provide insights into the limits of biomedicine and our experience with epidemics today Novel therapies developed for syphilis and AIDS became renowned in the medical field and the broader public sphere as exemplars of biomedical innovations Public health campaigns based on these spectacular biomedical advances however have repeatedly fallen short of their goals to eliminate syphilis and AIDS in the population The diseases epitomize the power of innovative biomedical therapies for the individual while unveiling limitations of scientific medicine in the domain of public health The need for a public health approach to address mistrust in science government indifference and racial inequalities is relevant for strategies to eliminate Covid 19

today Persisting Pandemics argues that campaigns to eliminate these diseases have not succeeded because they have not adequately addressed how diseases like AIDS syphilis and Covid spread unevenly in populations according to race ethnicity and geographic location Despite the expectation of public health officials that medical advances would render epidemics obsolete new diseases continue to emerge and spread regardless of efforts to eliminate them Medical doctor and historian Powel Kazanjian concludes that narratives of syphilis AIDS and Covid unlike smallpox do not contain a discrete ending at least not within the timelines specified by their elimination campaigns Instead they will be a continued part of our existence Provided by publisher
