Shakespeare Einstein And The Bottom Line The Marketing Of Higher Education:

Shakespeare, Einstein, and the Bottom Line David L. Kirp, 2004-09-30 Wry and insightful Shakespeare Einstein and the Bottom Line takes us on a cross country tour of the most powerful trend in academic life today the rise of business values and the belief that efficiency immediate practical usefulness and marketplace triumph are the best measures of a university's success

Die Universität im 21. Jahrhundert Yehuda Elkana, Hannes Klöpper, 2013-06-10 Die Universität sieht sich im 21. Jahrhundert mit neuen und schwer berschaubaren Herausforderungen konfrontiert doch verharnt sie in ihrem Denken und ihren Methoden im 19. Jahrhundert Yehuda Elkana und Hannes Klöpper setzen ihre Vision einer zeitgemäßen Universität dagegen. Deren Hauptaufgabe wird es sein, die Studierenden auf die globalen Fragen von Gegenwart und Zukunft vorzubereiten und sie so zu Bürgern auszubilden, die in der demokratischen Zivilgesellschaft Verantwortung übernehmen. Elkana und Klöpper proklamieren nicht weniger als die Idee einer Neuen Aufklärung. Die Einsicht, dass Wissen und Erkenntnis nicht feststehen sondern revidierbar und kontextabhängig sind, ist die Voraussetzung für die Lösung komplexer Probleme. Um ein solches vernetztes Denken zu vermitteln, bedarf es grundlegend neuer Curricula, aber auch alternativer Lehrformen und dynamischerer Universitätsstrukturen. Durch eine derartige Neuausrichtung kann die Universität einmal mehr zu einer die Gesellschaft prägenden und gestaltenden Kraft werden

Higher Education and the Market Roger Brown, 2010-09-13 The introduction of market forces into higher education is the most crucial issue facing universities and colleges today. As the role of universities in the knowledge society becomes ever more apparent and as public funding reaches its limit, marketisation has become an issue of critical importance. Discussions about the ever increasing cost of tuition, affordability, access, university rankings, information and the commercialization of academic research take place not just in North America, Western Europe and Australasia but also in Eastern Europe, Asia and Latin America. *Higher Education and the Market* provides a comprehensive account of this phenomenon and looks at its likely impact on key dimensions of university activity: system, structure, funding and resources, the curriculum, participation and achievement, research and scholarship, interactions with third parties. Contributors propose how market forces, government intervention and academic self-regulation can be combined to harness the benefits of increased competition and efficiency without losing the public good. It is of particular interest to government and institutional leaders, policy makers, researchers and students studying higher education.

Bildungsrendite als Zielgröße für das Hochschulmanagement Katharina Spraul, 2006-01-01 *Declining by Degrees* Richard H. Hersh, John Merrow, 2015-04-07 What is actually happening on college campuses in the years between admission and graduation? Not enough to keep America competitive and not enough to provide our citizens with fulfilling lives. When *A Nation at Risk* called attention to the problems of our public schools in 1983, that landmark report provided a convenient cover for higher education, inadvertently implying that all was well on America's campuses. *Declining by Degrees* blows higher education's cover. It asks tough and long overdue questions about our colleges and universities. In candid, coherent and

ultimately provocative ways Declining by Degrees reveals how students are being short changed by lowered academic expectations and standards why many universities focus on research instead of teaching and spend more on recruiting and athletics than on salaries for professors why students are disillusioned how administrations are obsessed with rankings in news magazines rather than the quality of learning why the media ignore the often catastrophic results and how many professors and students have an unspoken non aggression pact when it comes to academic effort Declining by Degrees argues persuasively that the multi billion dollar enterprise of higher education has gone astray At the same time these essays offer specific prescriptions for change warning that our nation is in fact at greater risk if we do nothing **Marketing**
