Shakespeare Contemporary Politics:

Shakespeare and Politics Bruce E. Altschuler, Michael A. Genovese, 2015-11-17 William Shakespeare more than any other author was able to capture the essence of human nature in all its manifestations His political plays offer enduring insights into our humanity our vanity our noble and baser drives what makes us great and what makes us loathsome He tells us about ourselves and about our world This volume gleans valuable lessons from the writings of William Shakespeare and applies them to contemporary politics Original chapters covering over a dozen different plays take up perennial political themes including power and leadership corruption and virtue war and peace evil and liberty persuasion and polarization and empire and global overreach Features of the text

Shakespeare and Renaissance Politics Andrew Hadfield, 2014-03-20 Shakespeare like many of his contemporaries was concerned with the question of the succession and the legitimacy of the monarch From the early plays through the histories to Hamlet Shakespeare's work is haunted by the problem of political legitimacy

Shakespeare and Early Modern Political Thought David Armitage, Conal Condren, Andrew Fitzmaurice, 2009-09-10 This is the first collaborative volume to place Shakespeare's works within the landscape of early modern political thought Until recently literary scholars have not generally treated Shakespeare as a participant in the political thought of his time unlike his contemporaries Ben Jonson Edmund Spenser and Philip Sidney At the same time historians of political thought have rarely turned their attention to major works of poetry and drama A distinguished international and interdisciplinary team of contributors examines the full range of Shakespeare's writings in order to challenge conventional interpretations of plays central to the canon such as Hamlet open up novel perspectives on works rarely considered to be political such as the Sonnets and focus on those that have been largely neglected such as The Merry Wives of Windsor The result is a coherent and challenging portrait of Shakespeare's distinctive engagement with the characteristic questions of early modern political thought

The Pragmatics of Early Modern Politics Urszula Kizelbach, 2014 This book paints a portrait of a successful politician according to early modern standards Kingship is no longer understood as a divinely ordained institution but is defined as goal oriented policy making relying on conscious acting and the theatrical display of power

Hamlet's Heirs Linda Charnes, 2006-09-27 Speaking to readers in a voice that is adventurous rather than authoritative innovative rather than institutional and speculative rather than orthodox Linda Charnes provocative study of Shakespeare's legacy in contemporary American and British politics explores the following themes namesake princes and presidents stolen thrones and elections plutocrats and insurgents campaign trails and war mongering waning monarchy and imperilled democracy revengers early modern and postmodern Linked by focused readings of Hamlet and the Henriad the essays follow Shakespeare's two most famous royal sons the Princes Hamlet and Hal as they haunt contemporary political psychology in the early years of a new millennium and especially in the aftermath of September 11 2001 Between devolution in Britain and the new doctrine of pre-emptive strike in the United States our contemporary

Hamlets and Hals epitomize a debate as fraught now as in Shakespeare day about the cost of spin doctoring legacies In exploring how current political culture inherits Shakespeare Hamlet s Heirs challenges scholarly assumptions about historical periodicity modernity and the uses of Shakespeare in present day contexts **Shakespeare and Politics**

Catherine M. S. Alexander,2004-09-02 This important collection of essays shows a full range of writing on Shakespeare and politics with shifts of focus as diverse as biography text and contexts language and film and from perspectives that are literary historical religious theoretical and cultural A new introductory article by John J Joughin provides a commentary on the essays relates them to other work in the field and gives an over view of the subject The comprehensive collection is a stimulating and provocative introduction to a subject that is complex but never dull **Shakespeare and the Poetics and Politics of Relevance**

Dympna Callaghan,Sophie Chiari,2024-11-09 Four years on from George Floyd s murder this volume asks if and how Shakespeare might be relevant whether in performance in the classroom or in scholarship to the pressing issues of social and climate justice This question however is accompanied by the acute and uncomfortable recognition that there have been other consequences to the awakening of the world since Floyd s death including the call to cancel Shakespeare altogether This volume however is not an apology for Shakespeare but rather an engagement with him From the perspective of the scholars who contribute here questions about Shakespeare in our current context are not only deeply enmeshed with issues about his historical geographical and performance context and its attendant alterity but crucially also to the specifically literary forms and structures with which he worked Even as these essays resist the idea of a timeless universalist Shakespeare they insist upon the poetics the creative framework the specifically literary dimensions of the plays that cannot be reduced to any paraphrasable content These are precisely the features that facilitate and enable the relevance of Shakespeare s works even across the chasm of the centuries since he composed them **Shakespeare's Legal and Political Background**

George W. Keeton,1957 **Shakespearean Fantasy and Politics** Thomas Betteridge,2005 This book draws extensively on the work of Slavojek and other contemporary thinkers including Adorno Laclau and Copjec to discover the truths of Shakespeare s drama and relate them to contemporary issues within the discipline of English literature

The Saturday Review of Politics, Literature, Science and Art ,1870 **Hamlet's Moment** András Kiséry,2016-04-28

Hamlet s Moment identifies a turning point in the history of English drama and early modern political culture the moment when the business of politics became a matter of dramatic representation Drama turned from open military conflict to diplomacy and court policy from the public contestation of power to the technologies of government Tragedies of state turned into tragedies of state servants inviting the public to consider politics as a profession to imagine what it meant to have a political career By staging intelligence derived from diplomatic sources and by inflecting the action and discourse of their plays with a Machiavellian style of political analysis playwrights such as Shakespeare Jonson Chapman and Marston transformed political knowledge into a more broadly useful type of cultural capital something even people without political

agency could deploy in conversation and use in claiming social distinction In Hamlet's moment the public stage created the political competence that enabled the rise of the modern public sphere

Shakespeare and European Politics Dirk Delabastita, Jozef de Vos, Paul Franssen, 2008 This volume's main focus is on the ways in which over the past 400 years Shakespeare has played a role of significance within a European framework particularly where a series of political events and ideologically based developments were concerned such as the early modern wars of religion the emergence of the nation during the late eighteenth and nineteenth centuries the First and Second World Wars the process of European unification during the 1990s the attack on the World Trade Center in New York and Britain's participation in the war in Iraq The whole of the collection and particularly the opening section clearly invites a European and even a global perspective This book convincingly demonstrates that Shakespeare both at the level of his meaning in his own time and at that of his reception in later ages should no longer be studied only in relation to particular nations but as Dirk Delabastita argues also at various supranational levels Book Jacket

Shakespeare, Politics, and Italy Mr Michael J Redmond, 2013-04-28 The use of Italian culture in the Jacobean theatre was never an isolated gesture In considering the ideological repercussions of references to Italy in prominent works by Shakespeare and his contemporaries Michael J Redmond argues that early modern intertextuality was a dynamic process of allusion quotation and revision Beyond any individual narrative source Redmond foregrounds the fundamental role of Italian textual precedents in the staging of domestic anxieties about state crisis nationalism and court intrigue By focusing on the self-conscious overt rehearsal of existing texts and genres the book offers a new approach to the intertextual strategies of early modern English political drama The pervasive circulation of Cinquecento political theorists like Machiavelli Castiglione and Guicciardini combined with recurrent English representations of Italy to ensure that the negotiation with previous writing formed an integral part of the dramatic agendas of period plays

Rethinking Shakespeare's Political Philosophy Alex Schulman, 2014-07-21 What were Shakespeare's politics As this study demonstrates contained in Shakespeare's plays is an astonishingly powerful reckoning with the tradition of Western political thought one whose depth and scope places Shakespeare alongside Plato Aristotle Machiavelli Hobbes and others This book is the first attempt by a political theorist to read Shakespeare within the trajectory of political thought as one of the authors of modernity From Shakespeare's interpretation of ancient and medieval politics to his wrestling with issues of legitimacy religious toleration family conflict and economic change Alex Schulman shows how Shakespeare produces a fascinating map of modern politics at its crisis-filled birth As a result there are brand new readings of *Troilus and Cressida* *Coriolanus* *Julius Caesar* *Antony and Cleopatra* *King Lear* *Richard II* and *Henry IV* parts I and II *The Merchant of Venice* and *Measure for Measure*

The North British Review, 1870

Shakespeare's Political Realism Tim Spiekerman, 2001-01-25 This book provides fresh interpretations of five of Shakespeare's history plays *King John* *Richard II* *Henry IV* Parts I and II and *Henry V* each guided by the often criticized assumption that Shakespeare can teach us something about politics In contrast to many

contemporary political critics who treat Shakespeare's political dramas as narrow reflections of his time the author maintains that Shakespeare's political vision is wide ranging compelling and relevant to modern audiences Paying close attention to character and context as well as to Shakespeare's creative use of history the author explores Shakespeare's views on perennially important political themes such as ambition legitimacy tradition and political morality Particular emphasis is placed on Shakespeare's relation to Machiavelli turning repeatedly to the conflict between ambition and justice In the end Shakespeare's history plays point to the limits of politics even more pessimistically than Machiavelli's realism

Shakespearean Criticism Dana Barnes, 1997-09 Presents literary criticism on the plays and poetry of Shakespeare Critical essays are selected from leading sources including journals magazines books reviews diaries newspapers pamphlets and scholarly papers Includes commentary by Shakespeare's contemporaries as well as a full range of views from later centuries with an emphasis on contemporary analysis Includes aesthetic criticism textual criticism and criticism of Shakespeare in performance **Political Shakespeare** Jonathan Dollimore, Alan Sinfield, 1985 **The Life of John Milton: Narrated in Connexion with the Political, Ecclesiastical, and Literary History of His Time** David Masson, 1880 *Politics Otherwise* Leonidas Donskis, J. D. Mininger, 2012 The book is comprised of essays that utilize Shakespeare as a productive window into topics of contemporary social and political relevance Its interdisciplinary qualities make the book relevant for students of political studies literature philosophy cultural studies and history

This Engaging World of E-book Books: A Thorough Guide Unveiling the Benefits of Kindle Books: A Realm of Convenience and Flexibility E-book books, with their inherent portability and simplicity of access, have liberated readers from the constraints of hardcopy books.
