Scharie Tavcer, Vicky Dobkins, 2023-01-18 This book is the culmination of three years of research into sexual violence policies and sexual consent education at post secondary institutions across Canada The prevalence of sexual violence has not changed in more than 30 years and its reporting to police or school authorities has only waxed and waned over those years In response this book asks what can be done differently to reduce the number of victims and potential perpetrators The book provides an environmental scan of over 120 post secondary institutions PSIs across Canada as well as a deeper analysis of 7 PSIs that also include student and staff experiences and opinions The three year research project employed various phases to capture over 160 student voices and over 20 sexual violence staff and subject experts Subject experts and students were also involved in reviewing the draft iterations of the proposed sexual consent education module This book delivers readers with a broad brush approach to understanding the landscape of sexual violence prevention and education services at PSIs across Canada It provides a narrowed focus on 7 PSIs where student and staff survey responses and interviews provide positionality in response to the available literature The book concludes with a proposed sexual consent education module including its strengths and limitations as a point of discussion for PSIs to include into their sexual violence prevention education repertoire This book is intended for post secondary audiences in Canada North America and elsewhere for undergraduate and graduate students and faculty staff and administrators where it is crucial to consider ways to address its prevalence and the ways we can incorporate prevention education into our campus communities The New Harvard Guide to Women's Health Karen J. Griffin,Robert C. L. Moffat,1997 The past two decades have seen an outpouring of work in legal theory that is self consciously critical of aspects of American law and the institutions of the liberal state In this lively volume eminent scholars in philosophy law and political science respond to this recent scholarship by exploring what constitutes a radical critique of the law examining such theories as critical legal studies feminist theory and theories of difference and critical race theory The authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of American law should take Writing at the cutting edge of the critique of critical legal theory they offer insights first on critical legal scholarship then on feminist political and legal theory A third group of contributions questions the radicalness of these approaches in light of their failure to challenge fundamental aspects of liberalism while a final section focuses on current issues of legal reform through critical views on criminal punishment including observations on rape and hate speech Each major essay describes the underlying principles in the development of a radical legal theory and addresses unresolved questions relating to it while accompanying commentaries present conflicting views The resulting dialogue explores wide ranging issues like equity value relativism adversarial and empathic legal advocacy communitarianism and the social contract impartiality and contingency natural law and corrective justice A common thread for many of the articles is a focus on the social dimension of society and law which finds the individualism of prevailing liberal theories too limiting **Radical Critiques of the Law** is particularly unique in presenting critical and feminist approaches in one volume along with skeptical commentary about just how radical some critiques really are Proposing alternative critiques that embody considerably greater promise of being truly radical it offers provocative reading for both philosophers and legal scholars by showing that many claims to radicalism are highly problematic at best **Sexual Offences Against Children** Committee on Sexual Offences Against Children and Youths (Canada),1984 **A New Approach to the History of Violence** Francisca Loetz,2015-06-02 Up to now historical research has treated violence mainly with reference to war murder or massacre Francisca Loetz argues for a new complementary approach to history of violence as an interpersonal form of social action experienced as unacceptable behavior and aiming to subjugate the victim in everyday life Analyzing cases of what the sources call sexual assault and sexual abuse in the city state of Zurich between 1500 and 1850 Loetz discusses fundamental methodological problems such as how can violence be defined as a concept What makes violence what it is in a given society Why is early modern sexual assault and sexual abuse not
