The Emergence of Modern Aesthetic Theory Simon Grote,2017-10-26 Broad in its geographic scope and yet grounded in original archival research this book situates the inception of modern aesthetic theory the philosophical analysis of art and beauty in theological contexts that are crucial to explaining why it arose Simon Grote presents seminal aesthetic theories of the German and Scottish Enlightenments as outgrowths of a quintessentially Enlightenment project the search for a natural foundation of morality and a means of helping naturally self interested human beings transcend their own self interest This conclusion represents an important alternative to the standard history of aesthetics as a series of preludes to the achievements of Immanuel Kant as well as a reinterpretation of several canonical figures in the German and Scottish Enlightenments It also offers a foundation for a transnational history of the Enlightenment without the French philosophes at its centre while solidly endorsing historians growing reluctance to call the Enlightenment a secularising movement

Shaftesbury and Hutcheson Thomas FOWLER (President of Corpus Christi

College, Oxford.),1882 **Locke, Shaftesbury, and Hutcheson** Daniel Carey,2006-02-02 Daniel Carey examines afresh the fundamental debate within the Enlightenment about human diversity Three central figures Locke Shaftesbury and Hutcheson questioned whether human nature was fragmented by diverse and incommensurable customs and beliefs or unified by shared moral and religious principles Locke s critique of innate ideas initiated the argument claiming that no consensus existed in the world about morality or God s existence Testimony of human difference established this point His position was disputed by the third Earl of Shaftesbury who reinstated a Stoic account of mankind as inspired by common ethical convictions and an impulse toward the divine Hutcheson attempted a difficult synthesis of these two opposing figures respecting Locke s critique while articulating a moral sense that structured human nature Daniel Carey concludes with an investigation of the relationship between these arguments and contemporary theories and shows that current conflicting positions reflect long standing differences that first emerged during the Enlightenment *Locke, Shaftesbury, and*

Hutcheson Daniel Carey,2006-02-02 Are human beings linked by a common nature one that makes them see the world in the same moral way Or are they fragmented by different cultural practices and values These fundamental questions of our existence were debated in the Enlightenment by Locke Shaftesbury and Hutcheson Daniel Carey provides an important new historical perspective on their discussion At the same time he explores the relationship between these founding arguments and contemporary disputes over cultural diversity and multiculturalism Our own conflicting positions today reflect long standing differences that emerged during the Enlightenment *Shaftesbury and Hutcheson* Robert Cecil Gaissert,1973
