Shahids Islam And Suicide Attacks:

The Shahids Shaul Shay, The Shahids analyzes the general phenomenon of Islamic suicide attacks and provides the reader with tools comparative analyses and comprehensive information enabling enlightened examination about suicide attacks worldwide It explores the possibilities and recommendations for an international struggle against suicide attacks through the implementation of recently published innovative ideas proposed by UN organizations Amnesty International and Human Rights Watch BOOK JACKET *The Shahids* Shaul Shay, 2017-10-12 Suicide terror has become a fundamental strategic weapon in the confrontation between Fundamentalist Islam and its adversaries and now constitutes a threat to world welfare and security The Shahids proposes that the nature of this terror changed after the attacks on the World Trade Center on September 11 In this first book to be published on the subject the author offers both an interpretation and an overall picture of a worldwide phenomenon that is not yet fully recognized even in Israel which remains a central arena for the perpetration of suicide attacks by terror organizations The Shahids analyzes the general phenomenon of Islamic suicide attacks and provides the reader with tools comparative analyses and comprehensive information enabling enlightened examination about suicide attacks worldwide After a review of the historical development of the religious and ideological values legitimating suicide attacks the volume explores the ways in which all terror organizations are both alike and different It focuses on the countries that support terror Iraq Iran and Saudi Arabia discusses suicide attacks perpetrated by women and the suicide attackers mothers and shows how various countries have put an end to suicide attacks It scrutinizes testimony drawn from confiscated documents regarding the approach of terror leaders and the administrative support of various organizations for suicide attacks while offering descriptions and direction on ways to contend with this challenge It explores the possibilities and recommendations for an international struggle against suicide attacks through the implementation of recently published innovative ideas proposed by UN Organizations Amnesty International and Human Rights Watch The Shahids maps out the overall phenomenon of suicide attacks as well as identifies various organizations and central key figures through comparative cross sections **Islamic Terror and the Balkans** Shaul Shay, 2017-07-12 The disintegration of Yugoslavia in the early 1990s ended the Yugoslavian Federation which for nearly fifty years had succeeded in preserving a delicate coexistence among the ethnic religious and national components contained within it Following this the Balkans became a violent arena of confrontation due to these warring factions Islamic Terror and the Balkans describes and analyzes the growth of radical Islam in the Balkans from its inception during the years of World War II to the present Shay s account shows how the Bosnian War between the Muslims and the Serbs provided the historical opportunity for radical Islam to penetrate the Balkans at a time when the Muslim world headed by Iran and the various Islamic terror organizations including Al Qaida came to the aid of the Muslims in Bosnia In the framework of the mobilization of these entities in aiding the Muslim side in the conflict the operational and organizational infrastructure of Iranian intelligence and

the Revolutionary Guards was established as well as those operated by other Islamic terror organizations. When war in Bosnia ended, terrorist infrastructures remained in the Balkans and served as a basis for these entities' intervention in the confrontation that developed in the Balkans in the late 1990s, specifically in Kosovo and Macedonia. Today the Balkans serve as a forefront on European soil for Islamic terror organizations which exploit this area to promote their activities in Western Europe, Russia and other focal points worldwide. Shay's analysis of terror activity in the aftermath of the September 11 attacks and exposure of terror cells throughout the world and particularly in Europe attest to the increasing involvement of the Balkan alumni and of the terrorist infrastructure from this area in creating global terror activity.

Die Wissenssoziologische Diskursanalyse (WDA) verbindet theoretische Grundlegungen der wissenssoziologischen Tradition von Peter Berger und Thomas Luckmann mit Diskursperspektiven von Michel Foucault. Sie zielt auf die Diskursanalyse gesellschaftlicher Wissensverhältnisse sowie Wissenspolitiken und deren Folgen. Dieser Band präsentiert methodologische Reflexionen, methodische Vorgehensweisen, exemplarische Anwendungen und Kombinationen der WDA mit anderen sozialwissenschaftlichen Perspektiven aus unterschiedlichen disziplinären Kontexten.

Terrorismus und Geschlecht Christine Hikel, Sylvia Schraut, 2012-05-14. Terroristische Akte gab es in den letzten 200 Jahren in zahlreichen Ländern von Deutschland und Russland über Irland und Zypern bis in die USA. Gemeinsam ist ihnen so zeigen die Autorinnen und Autoren des Bandes, dass sie die tradierten Geschlechterrollen infrage stellen. Terroristen werden meist entmannlicht verweiblicht und Terroristinnen entweiblicht vermannlicht. Dabei werden Terroristen im eigenen Lager zu Helden und Märtyrern stilisiert, während die Terroristin für beide Seiten das bürgerliche Geschlechtermodell ins Wanken bringt.

Suicide Bombers in Iraq Mohammed M. Hafez, 2007. The war in Iraq was supposed to be easy. Instead it has delivered the message that Islamic resistance and martyrdom can defeat the only remaining superpower, just as jihadists drove the Soviet Union from Afghanistan during the 1980s. Now a haven for jihadists, Iraq has entered a civil war whose duration, scope and magnitude have yet to be determined. The overwhelming majority of suicide attacks in Iraq have targeted Iraqi security forces and Shia civilians, not coalition forces. The perpetrators appear to be largely non-Iraqi volunteers. Many are from Saudi Arabia, but substantial numbers have come from Europe, Syria, Kuwait, Jordan and North Africa. They are foiling U.S. plans to stabilize the country and turn it into a democratic regime and an ally in a region of religious radicalism, entrenched authoritarianism and hostile states with nuclear ambitions. Understanding the phenomenon of suicide bombing in Iraq is therefore vitally important for U.S. national security, foreign policy in the Muslim world and the war on terrorism. This study, the first of its kind on the Iraqi insurgency, draws extensively on open source intelligence and papers of record, primary sources from insurgent groups including online documents and videos and

interviews with U S servicemen who have served in Iraq It examines the history of suicide bombing in Iraq and many other countries theoretical perspectives on suicide bombing the varied factions that comprise the insurgency the ideology and theology of martyrdom supporting suicide bombers their national origins and characteristics and the prospects for a third generation of transnational jihadists forged in the crucible of Iraq **Wissenobjekt Selbstmordattentat** Claudia Brunner,2010-12-06 The Red Sea Terror Triangle Sha'ul Shai,2005-01-01 In the aftermath of the terror campaign launched on September 11 2001 the United States declared war against global terror It identified the al Qaida organization and Afghanistan under the Taliban regime as the initial targets of the offensive and Iraq as the next However aside from the countries included by President Bush in the Axis of Evil Iraq Iran and North Korea a triangle of countries in the Red Sea region are also potential targets in the war against terror Sudan Somalia and Yemen This assessment is based on the historical record Each of these countries has in one form or another provided refuge for Islamic terror organizations Sudan Somalia and Yemen are Muslim states situated at the periphery of the heart of Islam which is generally identified as the Arab Peninsula Egypt and the Fertile Crescent This area is of strategic significance to both sides of the vital shipping route that connects the Arabian Sea the Indian Ocean and the Red Sea Osama Bin Laden al Qaida and members of other radical Islamic organizations have found allies and safe havens in both the heart of Islam and its periphery The presence of radical Islamic entities in the region alongside local problems and conflicts rooted in national ethnic and tribal issues has turned the Red Sea countries into a nucleus of instability and dissension one that threatens the security and peace of both neighboring and more distant countries Shay examines the three countries designated as the Red Sea Terror Triangle and explores the ties each maintains with Islamic terror as well as the reciprocal links between them Understanding these countries is of critical importance since all or some of them may constitute a base for Islamic terror organizations in the future *The Making of a Terrorist: Recruitment* James J. F. Forest,2006 Global terrorism has become a frightening reality The situation calls for greater engagement with the public as the necessary eyes and ears of the global anti terrorism coalition However to be effective the public must be equipped with the knowledge of how why and where an individual becomes a terrorist This is the primary goal of this set which seeks to answer one central question What do we currently know about the transformation through which an individual becomes a terrorist *Terrorism and Global Security* Ann E. Robertson,2007 Provides essays primary source documents and research tools that explore terrorism and security around the world Includes an annotated bibliography a chronology and a glossary **The Making of a Human Bomb** Nasser Abufarha,2009-07-24 Claims that there is a cultural logic to Palestinian suicide bombings and that these acts can neither be understood nor effectively countered without taking this into account *Terrorists, Victims and Society* Andrew Silke,2003-05-08 Terrorism is a topic which provokes extreme perceptions perceptions which spill easily into considerations of the actors behind the violence This volume offers a balanced and accessible account of the psychology of terrorists and terrorism **Does Terrorism have a**

Gender? - The Place of Women in Global Islamic Terrorism Hagar Figler, 2008-08-21 Seminar paper from the year 2008 in the subject Politics Miscellaneous grade 92 IDC IDC course Seminar language English abstract In the western world the participation of women in higher ranked positions is no longer questioned The equality between man and woman is considered a given fact However in regards to terrorism the difference in gender is still considered an issue and femininity and masculinity plays a role The gender theory the significance of being a man or a woman has gone into new dimensions by affecting fundamental Islam and giving terrorism a new identity Years ago the occurrence of suicide bombings was considered the embodiment of evil and had evoked from the public consternation and incomprehension Today these one time occurrences have become a recurrent trend known as a martyr phenomenon heard daily on news Up until recently most of the suicide bombers known as Shahids were men who committed the act in order to be remembered in history and upon being promised that it will lead them to paradise However today we see more and more women especially Muslim Islamic women who decide to die as female martyrs Since the attack on the World Trade Center in September 11 2001 terrorism has become a matter of every day public issue discussed as one of the top topics in daily news However these discussions rarely focus on the implication of gender on the issue and Islamic terrorism is intuitively perceived as masculine rather than feminine When the issue of gender in the Islamic world is finally brought up the focus is usually around the political and domestic oppression of woman an issue that has been analyzed thoroughly by political scientists legal practitioners and historians from all perspectives However rarely is the feminine role or lack thereof discussed in the pretext of terrorism No public emphasis has been given to the question of how is it possible that these all around oppressed women whose role in their society by stereotype is to be the caring housekeeper to give birth to children to stand for values like education etc have suddenly taken the role that has long been reserved for men by turning to violence and volunteering for suicide missions It begs the question does terrorism have a gender Is terrorism a masculine means increasingly utilized by Islamic women to raise their low standing in society and achieve liberation **Crisis** ,2005 *The Theory and Practice of Islamic Terrorism* Marvin Perry, Howard E. Negrin, 2008-10-15 Drawing from a variety of sources this anthology encourages readers to explore the multiple dimensions of Islamic terrorism and seeks to promote a better understanding of one of the most complicated and urgent problems facing the world today Divided into six parts the book deals with the theological and ideological background of the concept of jihad the policies and organization of Al Qaeda various policy recommendations for combating terrorism the motivations of suicide bombers the dilemma jihadists pose in Western countries and the adoption of classical European and anti Semitic myths for political and religious gain in segments of the Muslim world With excerpts ranging from works by Sayyid Qutb to Osama bin Laden to Nonie Darwish this book is a must have for anyone interested in or studying Islamic terrorism **The Making of a Human Bomb** Nasser A. Abufarha, 2006 **Islam and Salvation in Palestine** Meir Hatina, 2001-10 This study traces the rise of the Islamic Jihad its ideological platform and its relations with other political

forces both within and outside the Palestinian arena The study provides a basis for a wider discussion of how Palestinian Islamists deal with the challenge of peace created by the Oslo Accords particularly the shift of the PLO from a liberation movement to a sovereign entity with coercive power Nigerian Journal of Islam ,1975 *Political Islam: Strategies and tactics : Islamism among Arabs* Barry M. Rubin,2007 Organized into sections this book discusses the origins and world view of political Islam and its relationship with issues of terrorism and democracy This three volume collection also includes case studies that examine the ideas strategy tactics leadership and opposition to the movement both in the Middle East and in other parts of the world
