## **Prayer And Power In Byzantine And Papal Imagery:**

*Prayer and Power in Byzantine and Papal Imagery* Christopher Walter, 1993      Transformationen der Antike bei Raffael und seinem Umkreis Michail Chatzidakis, 2025-09-22 Die von Raffael entworfenen und von Giulio Romano ausgeführten Wandmalereien der Schlacht an der Milvischen Brücke und der Kreuzesvision in der nach dem Freskenzyklus benannten Sala di Costantino im Vatikan gelten in der Forschung als Ergebnis des intensiven Studiums antiker Sachverhalte im Raffaelkreis und des Bemühens um eine historisch korrekte Annäherung an die antike Kunst Doch Raffael wurde bereits von Giorgio Vasari Ludovico Dolce und Annibale Carracci nicht nur aufgrund seiner antiquarischen Kompetenz sondern auch wegen seiner poetischen Qualitäten als herausragender Historienmaler gewürdigt Ausgehend von der Formel *anticamente moderno e modernamente antico* mit der Pietro Aretino Giulio Romanos ideale Synthese von antiker und zeitgenössischer Kunst beschreibt analysiert Michail Chatzidakis den Unterschied zwischen historischen und dichterischen Darstellungsverfahren um so das Verhältnis zwischen archaologischer Präzision und poetischer Kreativität bei Raffael und seinem Umkreis in der Sala di Costantino genauer zu bestimmen      *Image Making in Byzantium, Sasanian Persia and the Early Muslim World* Anthony Cutler, 2023-05-31 Relations between Byzantium and its neighbours are the focus of this volume The papers address questions of cultural exchange with special attention to art historical relations as shown by technical iconographic and diplomatic exchanges While addressed to specialists both their approach and the language make these papers accessible to students at all levels      *Poetry and its Contexts in Eleventh-century Byzantium* Floris Bernard, Kristoffel Demoen, 2016-04-22 Byzantine poetry of the eleventh century is fascinating yet underexplored terrain It presents a lively view on contemporary society is often permeated with wit and elegance and is concerned with a wide variety of subjects Only now are we beginning to perceive the possibilities that this poetry offers for our knowledge of Byzantine culture in general for the intellectual history of Byzantium and for the evolution of poetry itself It is moreover sometimes in the most neglected texts that the most fascinating discoveries can be made This book the first collaborative book length study on the topic takes an important step to fill this gap It brings together specialists of the period who delve into this poetry with different but complementary objectives in mind covering the links between art and text linguistic evolutions social functionality contemporary reading attitudes and the like The authors aim to give the production of 11th century verse a place in the Byzantine genre system and in the historic evolution of Byzantine poetry and metrics As a result this book will to use the expression of two important poets of the period offer a small taste of what can be gained from the serious study of this period      *Sacred Images and Sacred Power in Byzantium* Gary Vikan, 2003 In these studies Gary Vikan has opened new perspectives on the daily life and material culture of Late Antiquity more specifically on icons and relics and on objects revealing of the world of pilgrimage the early cult of saints and marriage He contextualizes these familiar categories of object in the patterns of belief and ritual extracted from contemporary texts and the objects themselves in order to understand their meaning within the everyday lives

of those by whom and for whom they were made The studies give a nuanced delineation of the inherently ambiguous boundary between conventional religion and magic noting repeatedly those instances wherein the two are invoked in the same breath and by way of the same art object toward the same end From this historically constructed matrix of art belief and ritual the author derives an anthropologically defined paradigm of charisma and pilgrimage applied in one essay as an intriguing parallel to deconstructing the world of a contemporary secular saint Elvis Presley

Nelson, 2007 Written over nearly three decades the fifteen essays involve the three a s of the title art agency and appreciation The first refers to the general subject matter of the book Byzantine art chiefly painting of the twelfth through the fourteenth centuries the second to its often human like agency and the last to its historical reception The series begins with art works themselves and with the imagery and iconography of church decoration and manuscript illumination shifts to the ways that objects act in the world and affect their beholders and concludes with more general appreciations of Byzantine art in case studies from the thirteenth century to the present
