Paradigms, Poetics, and Politics of Conversion Jan N. Bremmer,Wout Jac. van Bakkum,Arie L. Molendijk,2006 In the terms of Durheimian sociology conversion is a fait social Although they are rarely treated as a cultural phenomenon conversions can obviously be examined for the norms values and presuppositions of the cultures in which they take place Thus conversion can help us to shed light on a particular culture At the same time the term evokes a dramatic appeal that suggests a kind of suddenness although in most cases conversion implies a more gradual process of establishing and defining a new religious identity From 21 24 May 2003 the University of Groningen hosted an international conference on Cultures of Conversion The contributions have been edited in two volumes which pay special attention to the modes of language and

idiom in conversion literature the meaning and sense of religious ideological discourse the variety of rhetorical tropes and the effects of the conversion narrative with allusions to religious or political conventions and idealizations The present volume contains theoretical contributions on the theory of conversion with special attention to the rational choice theory and on the history of research into conversion It also offers stimulating case studies ranging from the late Middle Ages to present times and taken from Germany Great Britain and The Netherlands The other volume Cultures of Conversion offers in depth studies of conversion that are mainly taken from the history of India Islam and Judaism ranging from the Byzantine period to the new Muslimas of the West

Impossible Jobs in Public Management Erwin C. Hargrove, John C. Glidewell, 1990 If you think your job is hopelessly difficult you may be right Particularly if your job is public administration Those who study or practice public management know full well the difficulties faced by administrators of complex bureaucratic systems What they don't know is why some jobs in the public sector are harder than others and how good managers cope with those jobs Drawing on leadership theory and social psychology Erwin Hargrove and John Glidewell provide the first systematic analysis of the factors that determine the inherent difficulty of public management jobs and of the coping strategies employed by successful managers To test their argument Hargrove and Glidewell focus on those jobs fraught with extreme difficulties impossible jobs What differentiates impossible from possible jobs are 1 the publicly perceived legitimacy of the commissioner's clientele 2 the intensity of the conflict among the agency's constituencies 3 the public's confidence in the authority of the commissioner's profession and 4 the strength of the agency's myth or long term idealistic goal Hargrove and Glidewell flesh out their analysis with six case studies that focus on the roles played by leaders of specific agencies Each essay summarizes the institutional strengths and weaknesses specifies what makes the job impossible and then compares the skills and strategies that incumbents have employed in coping with such jobs Readers will come away with a thorough understanding of the conflicting social psychological and political forces that act on commissioners in impossible jobs
