Leenaars, 2013-02-01 Treatment of suicidal people takes three forms prevention strategies to avert conditions leading to suicide intervention treatment and care during the crisis and postvention response after the event has occurred Unlike other current literature here the focus is on the state of the art of intervention This type of examination is essential because suicidal people themselves are in need of such treatments crisis intervention psychotherapy psychopharmacology and hospitalization Written by professionals in the field the Treatment of Suicidal People allows readers to participate in a learning experience First is a case presentation of an individual Arthur Inman and his long road toward suicide as chronicled in his personal diary The second section puts forth guidelines for the evaluation of suicide risk and crisis intervention A focus on more sustained efforts in psychotherapy is next a theme which is continued in the fourth part by addressing psychiatric issues that are essential for treatment of highly disturbed and lethal patients The following section examines a number of clinical and legal issues that transcend any one population of suicidal people and any particular treatment approach or context And lastly the volume returns to Arthur Inman with case consultations providing alternative perspectives and recommendations on his treatment Suicide and related forms of self injurious behaviour can be circumvented if the involved professionals are sufficiently trained in assessment and prevention

William Bower,2011-03-02 The person centered approach to counseling psychotherapy and education is about openness to change This book is about encouraging change in the person centered approach A good theory and practice has to be flexible enough to allow a new generation to

put its own slants on it This works seeks to question the jargon of the approach such as unconditional positive regard nondirectiveness and nonjudgmentalness However it also offers replacements to those terms It is also about hoping other thinkers and practitioners in the discipline will present their own ideas and thoughts about what it means to be person centered while being within the domain of what has come to be called Rogerian **Suicide** Darcy Haag Granello,Paul F.
