Political Insults Karina V. Korostelina, 2014-05-16 Five women entered the Cathedral of Christ the Saviour in Moscow and began a performance of a Punk Prayer Young people fried eggs on the eternal flame near the Tomb of the Unknown Soldier in Ukraine A small island in the Japan Sea provoked a diplomatic spat between the leadership of Japan and South Korea All of these incidents are examples of politically motivated insults that escalated into surprisingly significant clashes While the field of conflict analysis has looked extensively at the dynamics of insults between individuals it has largely ignored the more complicated dynamics of insult committed between groups often of uneven political and social power In this book Karina V Korostelina offers a novel framework for analyzing the ways in which seemingly minor insults between ethnic groups nations and other types of groups escalate to disproportionately violent behavior and political conflict Insult can take many forms Yet as this book shows it is always a social act mutually defined between groups and it has the power to destabilize and redefine social and power hierarchies Korostelina identifies six different drivers of political insults producing a theoretical model for analyzing intergroup insult and conflict She uses her model to explore each of the incidents above among other recent conflicts to explicate the complicated dynamics that figure within them The book concludes with practical suggestions for analyzing and resolving complex conflict situations
