Racial Cultural Minorities Revised Edition:

Wissenschaft und ›race relations‹ Reet Tamme, 2022-10-24 Die Untersuchung der race relations Forschung in Großbritannien 1950 1980 zeigt exemplarisch das Wechselverhältnis zwischen Wissenschaftsdiskurs und sozialer Realität auf In Anlehnung an die US amerikanische Soziologie beschäftigten sich die britischen Forscher ab den 1950er Jahren mit den neuen Zuwanderern aus dem New Commonwealth die in der britischen Gesellschaft schnell als ein neues soziales Problem wahrgenommen wurden Im Mittelpunkt steht die Frage ob und wie die Sozialwissenschaften in dem konkreten historischen und sozialen Setting soziale Realität mitstrukturierten Dabei wird nicht nur die textuelle Produktion der Forschung sondern auch die Institutionalisierung des Forschungsfeldes mit Einbeziehung wissenschaftlicher und politischer Akteure untersucht Deutlich wird dass die race relations Forschung eine wissenschaftliche Reaktion auf Migration Auflösung der Kolonien und die Unruhen im britischen Mutterland war Mit ihrer Grundidee der Verbesserung von race relations beanspruchte sie einen neuen gesellschaftlichen Konsens und entfaltete einen enormen Einfluss auf das soziale und politische Denken in Großbritannien Die rassistischen Zuschreibungen die sie hervorbrachte wurden erst mit den Vorläufern der Postcolonial Studies in Frage gestellt **Old Memories, New Moods: Americans from Africa** Peter I. Rose, 1970

Whoever has tried to understand the experience of African Americans in the United States is well aware of its controversial nature Highly regarded scholars often differ markedly in their interpretations of empirical findings For many years for example the views of Melville J Herskovits and E Franklin Frazier about the extent of African influence on American Negro life were hotly debated More recent controversies include among others the polemics over Stanley Elkins interpretation of slavery over the Moynihan Report and over William Styron's The Confessions of Nat Turner all dating from the late twentieth century Old Memories New Moods contains essays on the roots of African American protest comments on the background and character of the Negro Revolt and the Civil Rights Movement interpretations of the impact and significance of Black Power and finally varied views on changing self images and the meaning of Black Pride Original essays written especially for this book include those by Mina Davis Caulfield August Meier and Elliott Rudwick Gerald W Mullin and the editor Many other essays by black and white social scientists psychiatrists historians and political figures are offered in careful juxtaposition Among these contributors are anthropologists Melville J Herskovits and Ulf Hannerz social historians Raymond and Alice Bauer Winthrop D Jordan Eugene D Genovese Kenneth Stampp and Stanley Elkins Conceived as a continuum with volume one reissued by Transaction earlier each of the two volumes is distinct and self contained The first is particularly concerned with general background and life styles and the second with protest and attempts to develop new communal activities and avenues of expression Both should be most useful to all concerned with teaching and learning about African Americans in the United States be it in traditional social science or history programs in special seminars or in African American studies courses Peter I Rose is Sophia Smith Professor Emeritus of Sociology and Anthropology at the Louise W and Edmund J Khan Liberal Arts

Brand, 1966 *Marginal Groups and Mainstream American Culture* Yolanda Estes, 2000 They are often portrayed as outsiders ethnic minorities the poor the disabled and so many others all living on the margins of mainstream society Countless previous studies have focused on their pain and powerlessness but that has done little more than sustain our preconceptions of marginalized groups Most accounts of marginalization approach the subject from a distance and tend to overemphasize the victimization of outsiders Taking a more intimate approach this book reveals the personal moral and social implications of marginalization by drawing upon the actual experiences of such individuals Multidisciplinary and multicultural Identity on the Margin addresses marginalization at a variety of social levels and within many different social phenomena going beyond familiar cases dealing with race ethnicity and gender to examine such outsiders as renegade children conservative Christians and the physically and mentally disabled And because women are especially subject to the effects of marginalization feminist concerns and the marginalization of sexual practices provide a common denominator for many of the essays From problems posed by complimentary racism to the status of gays in Tony Blair's England from the struggle of Native Americans to preserve their identities to the singular problems of single mothers Identity on the Margin takes in a broad spectrum of cases to provide theoretical analysis and ethical criticism of the mechanisms of identity formation at the edges of society In all of the cases the authors demonstrate the need for theory that initiates social change by considering the ethical implications of marginalization and criticizing its harmful effects Bringing together accounts of marginalization from many different disciplines and perspectives this collection addresses a broad audience in the humanities and social sciences It offers a basis for enhancing our understanding of this process and for working toward meaningful social change **Ethnic Relations in the U.S.** Michael Winkelman, 1998 **Race and Redistricting** Tinsley E. Yarbrough, 2002 Through much of the 1990s a newly hatched snake wreaked political havoc in the South When North Carolina gained a seat in Congress following the 1990 census it sought to rectify a long standing failure to represent African American voters by creating under federal pressure two majority minority voting districts One of these snaked along Interstate 85 for nearly two hundred miles not much wider than the road itself in some places and was ridiculed by many as one of the least compact legislative districts ever proposed From 1993 to 2001 three intertwined cases went before the Supreme Court that decided how far a state could go in establishing voting districts along racial lines Noted Supreme Court biographer Tinsley Yarbrough examines these closely

linked landmark cases to show how the Court addressed the constitutionality of redistricting within the volatile contexts of civil rights and partisan politics A suit was first filed by Duke University law professor Robinson Everett a liberal who loathed discrimination but considered racially motivated redistricting a clear violation of the Fourteenth Amendment's equal protection clause Yarbrough tells how Everett enlisted associates as plaintiffs and went on to win two Supreme Court victories in *Shaw v Reno* 1993 and *Shaw v Hunt* 1996 both by 5 4 decisions Following the creation of another flawed redistricting plan he rounded up a new set of plaintiffs to take the battle back to the Supreme Court But this time in *Easley v Cromartie* on the swing vote of Justice Sandra Day O'Connor the 5 4 vote went against him Yarbrough shows the significant impact these cases have had on election law and the fascinating interplay of law politics and human conflict that the dispute generated Drawing heavily on court records and on interviews with attorneys on both sides of the litigation he relates a complex and intriguing tale about these protracted struggles His cogent and balanced analysis considers whether the state legislature was wrong in using race as a measure for establishing the new district or whether it was simply engaging in the time honored practice of gerrymandering to ensure political balance *Race and Redistricting* spotlights efforts to racially engineer voting districts in an effort to achieve fair representation By examining one state's efforts to confront such dilemmas it helps readers better understand future disputes over race and politics as well as the ongoing debates over our color blind constitution

An Unillustrious Alliance William M. Phillips, 1991-10-23 Are the relationships between minority groups as significant as those between dominant and minority groups In this innovative analysis of the relationships between the African American and the Jewish American communities Phillips argues that they are By examining the processes of negotiating bargaining cooperating and conflicting between these two communities over the last hundred years Phillips provides a case study of relationships that has importance to an understanding of racial and ethnic group interaction in America
