

How to use these resources

A great resource to collect data for MTSS/RtI

As a classroom teacher who used Benchmark Advance, I learned quickly that the program has a vast array of resources. For all its components, I also found the Comprehension Quickcheck resource to lack the assessments component for me to concretely gauge how a student is responding to the intervention. Thus, I created two sets of quizzes for each passage within the resource.

This Bundle Is a companion to the Grade 5 Benchmark Advance Comprehension Quickcheck resource.

The passages are not included since they are the property of the company. Instead, the supplemental resource draws from the content of those passages and correlates directly to them.

The table of contents on the next page indicates the skills and passage titles for both Form A and Form B texts. If you work in Florida, this resource is based on that version. However, if your Comprehension Quickcheck contains the same skills and passages, this resource is relevant to you as well.

Look at your Comprehension Quickchecks to see if they match the table of contents on the next pages.

In the program resource, each skill comes with a Form A and Form B passage or set of passages. For this resource, you will receive 2 quizzes. The quizzes are described below.

- **Quiz 1: 10 Multiple Choice Questions:** Each passage is accompanied by a ten-question multiple choice quiz. The intention of this quiz is to provide percent score to be used as part of the MTSS/RtI process or for a concrete grade. All students receive the same questions, each of which has a single correct answer.
- **Quiz 2: PartA/PartB and Multiselect:** Each passage also has a quiz with four Part A/Part B questions and six multiselect questions. The intent of this quiz is to practice test taking skills. In many cases, the PartA/PartB and Multiselect questions ask about the same things kids were asked in the multiple-choice quiz. The reason for this is that kids have a stronger knowledge of the text, therefore they can focus on the question and identify the skills they need to answer those types of questions.
