## Quodlibetal Questions On Moral Problems:

*Quodlibetal Questions on Moral Problems* Henry (of Ghent), 2005      *Social Rights and the Politics of Obligation in History* Steven L. B. Jensen, Charles Walton, 2022-01-06 A pioneering study in the history of social rights filling a significant gap in human rights scholarship and practice      **Enzyklopädie Philosophie und Wissenschaftstheorie** Jürgen Mittelstraß, 2024-03-15 Die Enzyklopädie Philosophie und Wissenschaftstheorie das größte allgemeine Nachschlagewerk zur Philosophie im deutschsprachigen Raum wurde 1980 begonnen und 1996 mit dem vierten Band abgeschlossen Sie erschien 2005 bis 2018 in einer komplett aktualisierten und erweiterten 8 bändigen Neuauflage die hiermit nun in einer kartonierten Sonderausgabe vorliegt Die Enzyklopädie umfasst in Sach- und Personenartikeln nicht nur den klassischen Bestand des philosophischen Wissens sondern auch die neuere Entwicklung der Philosophie insbesondere in den Bereichen Logik Erkenntnis und Wissenschaftstheorie sowie Sprachphilosophie Zugleich finden Grundlagenreflexionen in den Wissenschaften und deren Geschichte ausführliche Berücksichtigung Die umfassenden Bibliographien und Werkverzeichnisse wurden für die 2. Auflage in allen Artikeln auf den neuesten Stand gebracht      Henry of Ghent's Summa of Ordinary Questions Henry (of Ghent), 2008      *Tradition, Innovation, Invention* Hans-Joachim Schmidt, 2011-12-22 This volume examines the antagonism between tradition and innovation in the Middle Ages There were lines of thought which presume adherence to authoritative examples but also believe in the purposefulness of history in that starting from an original state there is a succession of redemptive actions threats of danger and promises of happiness and at times even the expectation of an ideal final state New processes new skills new knowledge new ethical attitudes and new forms of co-existence are seen as representing progressive steps which do not cease in the present and are directed towards the promise of future happiness This view was however confronted with those which bemoaned change as a deviation from past ideals and as a decline and which held that the present and future could only be improved through recourse to tried and tested states legitimised through tradition There was therefore the legitimation through tradition but at the same time there was a commitment to innovation which was judged to be an improvement The image of dwarves who stand on the shoulders of giants but are thus able to see farther demonstrates the dichotomous attitude of the Middle Ages The volume presents papers from a variety of disciplines involved in medieval studies The papers focus on views of time and change technological invention the accumulation of goods and profit reform and innovation in communities and the state the increase in knowledge innovation in art and literature and the possibilities and boundaries of progress in human knowledge      *Moral Dilemmas in Medieval Thought* M. V. Dougherty, 2011-04-14 The history of moral dilemma theory often ignores the medieval period overlooking the sophisticated theorizing by several thinkers who debated the existence of moral dilemmas from 1150 to 1450 In this book Michael V. Dougherty offers a rich and fascinating overview of the debates which were pursued by medieval philosophers theologians and canon lawyers illustrating his discussion with a diverse range of examples of the moral dilemmas which they considered

He shows that much of what seems particular to twentieth century moral theory was well known long ago especially the view of some medieval thinkers that some forms of wrongdoing are inescapable and their emphasis on the principle choose the lesser of two evils His book will be valuable not only to advanced students and specialists of medieval thought but also to those interested in the history of ethics

**Theological Quodlibeta in the Middle Ages: The Fourteenth Century** Chris Schabel, 2007-12-31 This is the second of two volumes on theological quodlibeta records of special disputations held before Christmas and Easter ca 1230 1330 mostly at the University of Paris in which audience members asked the great masters of theology the questions for debate questions de quolibet about anything The variety of the material and the authors stature make the genre uniquely fascinating In Volume II chapters by acknowledged experts cover the quodlibeta of John Duns Scotus Peter Auriol John of Pouilly Peter of Auvergne and Thomas Wylton examine the pertinent writings of the religious orders including the monks canons regular and mendicants revise our understanding of important manuscripts containing quodlibeta offer critical editions of significant texts and demonstrate how these writings are crucial for our knowledge of the history of topics in metaphysics and natural philosophy For all those interested in medieval studies especially intellectual history

**Theological Quodlibeta in the Middle Ages** Christopher David Schabel, 2006 The second of two volumes on special theological disputations from ca 1230 1330 in which audience members asked the era's greatest intellectuals questions de quolibet about anything The variety of the material and the authors stature make the genre uniquely fascinating

**The Cambridge History of Medieval Philosophy** Robert Pasnau, Christina van Dyke, 2014-06-19 The Cambridge History of Medieval Philosophy comprises over fifty specially commissioned essays by experts on the philosophy of this period Starting in the late eighth century with the renewal of learning some centuries after the fall of the Roman Empire a sequence of chapters takes the reader through developments in many and varied fields including logic and language natural philosophy ethics metaphysics and theology Close attention is paid to the context of medieval philosophy with discussions of the rise of the universities and developments in the cultural and linguistic spheres A striking feature is the continuous coverage of Islamic Jewish and Christian material There are useful biographies of the philosophers and a comprehensive bibliography The volumes illuminate a rich and remarkable period in the history of philosophy and will be the authoritative source on medieval philosophy for the next generation of scholars and students alike

[An Introduction to Medieval Philosophy](#) Joseph W. Koterski, 2009 By exploring the philosophical character of some of the greatest medieval thinkers An Introduction to Medieval Philosophy provides a rich overview of philosophy in the world of Latin Christianity

**Gottschalk and a Medieval Predestination Controversy** Gottschalk (of Orbais), 2010 The question of predestination and its nature which drew strong protests from the monks of Provence in the early fifth century against the teaching of Augustine of Hippo was initially settled by the Council of Orange in 529 But in the Carolingian renaissance in the ninth century the Benedictine monk

Gottschalk of Orbais brought the teachings of the late Augustine to the forefront of theological debate and greatly disturbed the clergy and faithful with his doctrine of double predestination of some to the joy of heaven and of others to the eternal punishment of hell a doctrine that he claimed was that of Augustine and the Catholic faith The present volume provides for the first time an English translation of Gottschalk's key writings on predestination and various reactions and comments from leading theologians of the ninth century as well as a learned introduction to Gottschalk's life and controversies Publisher

*Mediaevalia*, 2012      *The Providence of God Regarding the Universe* William (of Auvergne, Bishop of Paris), 2007

**Gregorianum**, 2005      The Modern Schoolman, 2005      *On Real Relation* Francisco Suárez, 2006 Relation is at the heart of any philosophy but especially of Aristotelian philosophy It is also at the heart of theological understanding of the central Christian doctrine of the Trinity of Persons in God Arguably the greatest and certainly the most influential Jesuit philosopher theologian of all time Francisco Suarez 1548 1617 would by any estimate qualify to explain relation While he has treated the subject often in his published writings his best and most systematic treatment of its myriad dimensions will be found in his famous *Disputationes metaphysicae* in two places Earlier translated into English by the translator of the present volume Disputation 54 Section 6 gives Suarez's teaching on mind dependent relations This translation now of the eighteen Sections of Disputation 47 contains his careful broad and deep thought on mind independent both categorical and transcendental relations While Suarez presents his teaching in a systematic way he intentionally wraps it around a first rate explanation of Aristotle's enigmatic treatment of the category of Aristotle's enigmatic treatment of the category of relation in the *Perihermeneias* and the *Metaphysics* For that explanation alone the present volume is timelessly valuable But as any serious reader will soon see its value only begins there      **Theological Quodlibeta in the Middle Ages** Christopher Schabel, 2006 The first of two volumes on special theological disputations from ca 1230 1330 in which audience members asked the era's greatest intellectuals questions de quolibet about anything The variety of the material and the authors stature make the genre uniquely fascinating      Love of Self and Love of God in Thirteenth-century Ethics Thomas Michael Osborne, 2005 This book debates the controversy over whether or not it is possible to love God more than oneself through natural powers alone Thirteenth century philosophers and theologians study how one's own good is achieved through virtuous action and how to adapt Aristotle's philosophical insights to a Christian framework      **The Catholic Periodical Index** Laurence Andrew Michael Leavey, 1954
