Quoit Brooch Style And Anglo Saxon Settlement:

The Quoit Brooch Style and Anglo-Saxon Settlement Seiichi Suzuki, 2000 The quoit brooch style a decorative style of animal and geometric motifs is unique to southern England in the 5th century AD with the greatest concentration of such items occurring in Kent The author defines the style through an analysis of its design organization and by comparing it with near contemporary styles in England and on the continent he identifies those features which make it unique Zwischen Spätantike und Frühmittelalter Sebastian Brather, 2008-12-10 Arch ologische und historische Untersuchungen zu Gruppen und Identit ten im fr hen Mittelalter befinden sich seit einigen Jahren in einem Paradigmenwechsel Statt einer m glichst strikten idealtypischen Trennung zwischen Germanen und Romanen beginnt eine andere Perspektive in den Mittelpunkt zu r cken die gemeinsame Lebenswelt in Sp tantike und fr hem Mittelalter die zeitgen ssischen Verh ltnisse ihre Wahrnehmung und ihre Ver nderungen Wie sich neue politische und soziale Strukturen herausbildeten auf welche Weise neue Identit ten an die Stelle bisheriger sich aufl sender Zuordnungen traten ist nun von zentralem Interesse Nicht R mer oder Germanen sondern ganze Bev lkerungen unterschiedlicher individueller Herkunft hatten Anteil an einer Entwicklung die als Transformation der r mischen Welt beschrieben werden kann Verschiedene Richtungen der Arch ologie besch ftigen sich damit kulturgeschichtliche Untersuchungen zu Sachkultur und Bestattungen Siedlungs und Wirtschaftsarch ologie sowie Studien zu zeitgen ssischen Vorstellungen und Identit ten Miteinander verbunden bieten sie ein differenziertes und komplexes Bild kultureller und historischer Entwicklungen *Representing Beasts in Early Medieval England and Scandinavia* Michael D. J. Bintley, Thomas J. T. Williams, 2015 Essays on the depiction of animals birds and insects in early medieval material culture from texts to carvings to the landscape itself For people in the early Middle Ages the earth air water and ether teemed with other beings Some of these were sentient creatures that swam flew slithered or stalked through the same environments inhabited by their human contemporaries Others were objects that a modern beholder would be unlikely to think of as living things but could yet be considered to possess a vitality that rendered them potent Still others were things half glimpsed on a dark night or seen only in the mind s eye strange beasts that haunted dreams and visions or inhabited exotic lands beyond the compass of everyday knowledge This book discusses the various ways in which the early English and Scandinavians thought about and represented these other inhabitants of their world and considers the multi faceted nature of the relationship between people and beasts Drawing on the evidence of material culture art language literature place names and landscapes the studies presented here reveal a world where the boundaries between humans animals monsters and objects were blurred and often permeable and where to represent the bestial could be to hold a mirror to the self Michael D J Bintley is Senior Lecturer in Medieval Literature at Canterbury Christ Church University Thomas J T Williams is a doctoral researcher at UCL s Institute of Archaeology Contributors No l Adams John Baker Michael D J Bintley Sue Brunning L szl S ndor Chardonnens Della Hooke Eric Lacey Richard North Marijane Osborn Victoria Symons Thomas J

Williams Recycling and Reuse in the Roman Economy Chloë N. Duckworth, Andrew Wilson, 2020-09-10 The recycling and reuse of materials and objects were extensive in the past but have rarely been embedded into models of the economy even more rarely has any attempt been made to address the scale of these practices Recent developments including the use of large datasets computational modelling and high resolution analytical chemistry are increasingly offering the means to reconstruct recycling and reuse and even to approach the thorny issue of quantification This volume is the first to bring together these new approaches and the first to present a consideration of recycling and reuse in the Roman economy taking into account a range of materials and using a variety of methodological approaches It presents integrated cross referential evidence for the recycling and reuse of textiles papyrus statuary and building materials amphorae metals and glass and examines significant questions about organization value and the social meaning of recycling **Migration und Identität** Harald Kleinschmidt, 2009 Vom 5 bis zum 7 Jh wandelte sich Britannien von einer römischen Kolonie über eine Vielzahl konkurrierender Kleinkönigtümer bis zur Ausbildung eines Systems von sieben Staaten Welche kollektiven Identitäten trugen die Leute mit sich die als Migranten vom Kontinent kamen und wie wandelten sich diese Identitäten durch die postmigrationalen Herrschaftsbildungsprozesse Diese bisher vernachlässigten Fragen beantwortet der Autor anhand einer Vielzahl an Schriftquellen toponomastischen Erkenntnissen und archaologischen Funden An die Stelle eines einzigen Interpretationsmodells tritt dabei ein Pluralismus landesgeschichtlich spezifischer Modelle Erst danach kann die Frage nach einer kollektiven Identität der Bewohner Englands gestellt werden **King Arthur's Country** Stuart Laycock, Christopher Gidlow, 2024-12-30 England today is a rich complex mix of identities cultures and heritages However in the decades after Roman Britain collapsed in the fifth century the cultures of the Angles and of the Saxons with significant degrees of homogeneity spread rapidly westwards across much of eastern southern and central England Then it stopped Or was stopped For the area then still beyond Anglo Saxon reach is characterized by a network of military and economic links across the island Perhaps significantly this includes parts of Britain traditionally associated with King Arthur Later the multi ethnic and multi cultural kingdom of Mercia in alliance with British kingdoms in Wales spread from the Midlands across England under the mysterious King Penda dominating the earlier Anglo Saxon kingdoms with its wealth and military power The region that gave birth to Mercia is also a region that was a most likely base for the elusive figure of King Arthur The authors use historical and archaeological evidence much of it new to explore the link between Arthur's kingdom and the rise of Penda's Mercia They seek to locate lost Arthurian battlefields and understand what happened there with exciting new results This is the story of one region two kings and two centuries that changed England forever *UnRoman Britain* Dr Miles Russell, Stuart Laycock, 2011-09-30 Roman Britain is usually thought of as a land full of togas towns and baths with Britons happily going about their Roman lives under the benign gaze of Rome This is to a great extent a myth that developed after Roman control of Britain came to an end in particular when the British Empire was at its height in the late nineteenth and

early twentieth centuries In fact Britain was one of the least enthusiastic elements of the Roman Empire The northern part of Britain was never conquered at all despite repeated attempts Some Britons adopted Roman ways in order to advance themselves and become part of the new order or just because they liked the new range of products available However many failed to acknowledge the Roman lifestyle at all while many others were only outwardly Romanised clinging to their own identities under the occupation Britain never fully embraced the Empire and was itself never fully accepted by the rest of the Roman world Even the Roman army in Britain became chronically rebellious and a source of instability that ultimately affected the whole Empire As Roman power weakened the Britons abandoned both Rome and almost all Roman culture and the island became a land of warring kingdoms as it had been before Britons in Anglo-Saxon England N. J. Higham, 2007

The number of native Britons and their role in Anglo Saxon England has been hotly debated for generations the English were seen as Germanic in the nineteenth century but the twentieth saw a reinvention of the German past Today the scholarly community is as deeply divided as ever on the issue place name specialists have consistently preferred minimalist interpretations privileging migration from Germany while other disciplinary groups have been less united in their views with many archaeologists and historians viewing the British presence potentially at least as numerically significant or even dominant The papers collected here seek to shed new light on this complex issue by bringing together contributions from different disciplinary specialists and exploring the interfaces between various categories of knowledge about the past They assemble both a substantial body of evidence concerning the presence of Britons and offer a variety of approaches to the central issues of the scale of that presence and its significance across the seven centuries of Anglo Saxon England Publisher's website Reallexikon der germanischen Altertumskunde Johannes Hoops, 2006 **Mediävistik im 21. Jahrhundert** Hans-Werner Goetz, Jörg Jarnut, 2003 Anglo-Saxon/Irish Relations Before the Vikings James Graham-Campbell, Michael Ryan, 2009-12-24 These essays provide the first interdisciplinary assessment of the links between the Anglo Saxons and the Irish before 800 This overview of recent advances in the field ranges widely in scope covering language and literature legal traditions ecclesiastical history and the evidence of material culture through art history and archaeology *The Making of Kingdoms* Tania Marguerite Dickinson, David Griffiths, 1999 Rather than debate location and specifics this collection concentrates on the interconnections and resonances of kingdoms Papers were drawn from the 47th Sachsensymposium York 1996 and address areas around the North Sea and Baltic This volume examines general models and research agenda derived from archaeology and history the search for kingdoms on the ground control and mobilisation of resources through economic social and territorial organisations and identifying kingdoms of the mind Though many of the papers are thematic regional interests are still well represented in pieces ranging from Frisia Heidinga and Gerrets to Middle Anglia Hines and Denmark Axboe Archaeologia Cantiana, 2009 Burial and Memorial in Late Antiquity, 2024-10-02 Burial and Memorial explores funerary and commemorative archaeology A D 284 650 across the late antique world This second volume includes papers

exploring all aspects of funerary archaeology from scientific samples in graves to grave goods and tomb robbing and a bibliographic essay It brings into focus neglected regions not usually considered by funerary archaeologists in NW Europe such as the Levant where burial archaeology is rich in grave good to Sicily and Sardinia where post mortem offerings and burial manipulations are well attested We also hear from excavations in Britain from Canterbury and London and see astonishing fruits from the application of science to graves recently excavated in Trier Landscape, Settlement and Society in Roman and Early Medieval Wiltshire Simon Draper,2006 Landscape Settlement and Society in Roman and Early Medieval Wiltshire **The Anglo-Saxon Settlement of Humberside** Bruce N. Eagles,1979 *After Empire* Giorgio Ausenda,1995 The decline of the Roman Empire encouraged the spread westwards of tribes from eastern Europe settling areas from which native people had been cleared by the spread of the power of Rome The studies here focus on the customs of these barbarian peoples **Germania** ,1988 Antiquity Osbert Guy Stanhope Crawford,2001 Includes section Reviews

Excavations at Mucking: Anglo-Saxon settlement Ann Clark,Helena Hamerow,1993 With two cemeteries at least 53 posthole buildings and over 200 Grubenhauser Mucking remains the most extensive Anglo Saxon settlement excavated to date and one of the earliest This report from the 1965 1978 excavations concentrates on the structures and artefacts from the settlement and gives special consideration to the pottery assemblage Specialist contributions examine the environmental and technological evidence such as plant and animal resources and metalworking technology The discussion focuses on changes in the size and layout of the community its historical and geographical contexts and its relationship to the preceding Romano British landscape
