Strategic Weapons Proposals United States. Congress. Senate. Committee on Foreign Relations,1981 **Schism in the Anglo-Saxon Race** Goldwin Smith,1887 **House Documents** USA House of Representatives,1870 Devaluing Black Space Courtney Marie Bonam,2010 Do spaces have races Why might space race associations matter Across four studies participants attached racial meaning to a range of locations as well as negatively stereotyped and reported feeling less connected to Black spaces in particular Negative stereotyping and lack of connection to Black space explained why these spaces experienced both housing and environmental discrimination Studies 1 and 2 participants generated raced spaces and then rated the extent to which they thought of these locations i e inner cities suburbs as White or Black The more Black spaces were the less White they were showing participants made clear distinctions between these two types of spaces Further the Black spaces were rated more negatively than the White spaces showing participants devalued Black space Study 3 expanded this finding by manipulating the race of one location a house for sale by a Black or White family Participants gave the Black house relative to the White a lower evaluation i e they thought it was worth less and were less eager to move there The Black house received this lower evaluation because participants negatively stereotyped it They imagined the neighborhood surrounding it to be lower quality than the neighborhood they imagined around the White house i e less safe lower quality schools and municipal services Additionally participants reported feeling less connected to the neighborhood around the Black house which also helped to explain its lower evaluation Study 4 participants again discriminated against Black space this time in the environmental domain Participants read a proposal to place a potentially polluting chemical plant near a majority Black or White neighborhood They reported less opposition to this plant when the nearby neighborhood was Black This Black space received less environmental protection because participants were more likely to think it already housed other industrial facilities industrial space stereotype and again because they reported feeling less connected to it These results are important not only because they expand theory on racial discrimination stereotyping and sense of place but also because they provide an enhanced understanding of the causal role race plays in producing and maintaining disparities in access to high quality healthy living spaces The Journal of Jurisprudence and Scottish Law Magazine ,1890 "An" English Garner Edward Arber,1895 **The Dangerous Canoe Race** Lee Roddy,1990 Twelve year old Josh and his friends face danger and gain a greater understanding of the importance of winning and losing when their challenger to an outrigger canoe race in the Hawaiian islands tries to win by any means **Nomination of Edward L.
