Department for Transport: Draft National Policy Statement for National Networks - December 2013 Great Britain: Department for Transport,2013-12-04 The National Policy Statement NPS outlines the Government s vision and policy for the future development of nationally significant infrastructure projects on the national road and rail networks but excluding HS2 It provides guidance for promoters of nationally significant infrastructure projects and the basis for the examination by the Examining Authority and decisions by the Secretary of State Chapters explore the need for development and the government s policy wider Government policy on the national networks assessment principles generic impacts The proposal for a national policy statement on ports Great Britain: Parliament: House of Commons: Transport Committee,2010-03-17 National Policy Statements NPS are a key component of the new planning system for nationally significant infrastructure projects introduced by the Planning Act 2008 The Act stipulates that a proposal for a National Policy Statement will be subject to public consultation and allows for parliamentary scrutiny before designation as national policy by the Secretary of State The draft Ports National Policy Statement Department for Transport 2009 has been welcomed by many organisations as a good start which can be built upon The Committee has recommended a number of modifications and expects the Department will improve the draft as a result of the consultation and scrutiny processes The Committee has reservations regarding the Government s 2007 policy for ports and the lack of guidance on location for port development in the NPS but this of itself does not make the NPS unfit for purpose But the Committee cannot recommend designation at this stage on two counts Firstly a key related policy statement the National Networks NPS has yet to be published Secondly the organisation likely to be one of the principal decision makers for port development the Marine Management Organisation has yet to be established and so has been unable to comment on guidance that will be of great importance to its role These are fundamental flaws in the consultation process and the Ports NPS should not be designated until they are rectified **Health Care Systems**

Engineering for Scientists and Practitioners Andrea Matta,Evren Sahin,Jingshan Li,Alain Guinet,Nico J. Vandaele,2016-09-01 In this volume scientists and practitioners write about new methods and technologies for improving the operation of health care organizations Statistical analyses play an important role in these methods with the implications of simulation and modeling applied to the future of health care Papers are based on work presented at the Second International Conference on Health Care Systems Engineering HCSE2015 in Lyon France The conference was a rare opportunity for scientists and practitioners to share work directly with each other Each resulting paper received a double blind review Paper

topics include hospital drug logistics emergency care simulation in patient care and models for home care services
