The Impact of Political Uncertainty on Asset Prices: The Case of the United Kingdom's EU Membership Referendum Joseph Hanna, Mr. Niels-Jakob H Hansen, Ms. Margaux MacDonald, 2021-02-05 How did expectations of the outcome of the United Kingdom's UK referendum on European Union EU membership in 2016 affect prices in financial markets We study this using high frequency data from betting and financial markets We find that a one percentage point increase in the probability of Leave result caused British stocks FTSE All Share to decline by 0.004 percent and the Pound to depreciate by 0.006 percent against the euro We find negative and significant effects for most sub sectors and negative spillovers to other EU member countries We show that the differential impact across sectors and countries can be explained by differences in the trade exposures

Better Betting with a Decent Feller Carl Chinn, 2004 Today branches of chains such as William Hill and Ladbrokes are familiar sights in high streets across Britain and betting takes place on all sorts of events from horse racing to general elections from football matches to the likelihood of snow falling on Christmas Day Yet until 1961 street bookmakers were illegal and old prejudices are slow to fade away A stigma is still attached to bookmaking and for many people bookmakers remain disreputable and shady lot This book sets out to examine why this is the case Social historian Carl Chinn was himself a bookmaker like his father and grandfather before him and therefore brings his own unique perspective to this lively and highly readable account of the profession's history from its origins among the sharpsters who hoodwinked punters at racecourses to the illegal street bookies
