all while disadvantaging none This book is neither a diatribe against economic elites nor a postmortem analysis of the ills of digital distribution Instead it proposes a new approach with the potential to benefit all involved parties an approach that at once embraces the intensifying power of storytelling and eschews the notion that disruption and instability must greet an industry hand in hand Rather than favoring any given group over another Hernandez imagines a streamlined world of shared platforms and common standards that empower storytellers developers and deliverers alike By dispensing of business models that have proved unviable in the digital age we can turn higher profits while more equitably compensating creatives and creative endeavors In today s networked world the economics of storytelling matters to everybody It s time we all got onboard
