Wolfson,1992 The 1986 Tax Act in the U S gradually reduced corporate tax rates from 46 percent prior to the Act to 34 percent by the middle of 1988 This reduction gave firms an incentive in 1986 and 1987 to shift taxable income to future years when tax rates would be lower There are substantial impediments however to shifting taxable income across periods notably offsetting tax consequences to other contracting parties and a host of nontax costs and it becomes an empirical question as to whether the benefits of shifting taxable income are sufficient to overcome the impediments This paper examines whether firms deferred income recognition and or accelerated expense recognition in anticipation of these declining tax rates We find statistically significant evidence that firms shifted gross margin from the quarter immediately preceding and anticipated decrease in tax rates to the next quarter We estimate that on average the 812 firms in our sample saved approximately five hundred thousand dollars in taxes by deferring sales At a gross margin rate of one third this amounts to nearly twenty billion dollars of shifted sales for our sample firms New York State Sales and Use Tax Law and Regulations: As of January 1, 2009 Cch State Tax Law Editors,2009-02 New York State Sales and Use Tax Law and Regulations serves as a comprehensive resource for all those who work with sales and use tax issues in New York It is a great companion to CCH s Guidebook to New York Taxes providing full text of the New York State tax laws concerning sales and use taxes Articles 1 8 28 29 37 and 41 as well as related New York City provisions Chapters 1 and 20 of the NYC Administrative Code Also includes full text of sales and use tax Regulations and Technical Services Bureau Memoranda TSBM This Edition presents the law and regulations as amended through January 1 2009 *Commercial and Financial Chronicle Bankers Gazette, Commercial Times, Railway Monitor and Insurance Journal* ,1892 **Monthly Record ...** Manchester (England).
