Global University Rankings and the Mediatization of Higher Education Michelle Stack, 2016-04-12 Higher Education Institutions simultaneously critique and participate in national and international rankings of universities However this creates a difficult situation since if universities do participate in rankings they acquiesce to a system based in media logics that has little to do with academic norms of research If they do not participate in the rankings they risk losing public funding students and donors in an increasingly competitive and globalized

environment This book delves into the influence of journalists business tycoons and multinational corporations in defining what world class is and how it will be measured Rankings provide us with a rich study for understanding how universities define deploy and manage their assets and liabilities in a mediatized globalized economy Second Class No Longer Phillip L. Beukema,2023-10-19 No one could have predicted thirty years ago that online learning would become such a key facet of our educational landscape in nearly every corner of the world Online teaching and learning have evolved rapidly and far more widely than imaginable accompanied by huge impacts on business society and our entire educational enterprise Drawing on his extensive experience in online teaching at both the graduate and undergraduate level as well as his 25 years in higher ed administration the author paints a global picture of the evolution of online education He describes how one country after another has witnessed the astonishing growth of online degrees and microcredentials of all kinds Along the way he dispels the myths and misperceptions that have grown up around online learning With incisive analysis built on solid data the author demonstrates that online programs are no longer regarded as second class but in fact are fully in the mainstream of higher education Not only that but he predicts that by 2030 they will become the gold standard by which the more traditional degrees will be judged **Impacts of Study Abroad on Higher Education Development** Nobuko Kayashima,Miki Sugimura,Kazuo Kuroda,Yuto Kitamura,2024-08-10 This open access book is an exceptional contribution to the burgeoning fields of higher education development and higher education internationalization as it empirically examines the impact of the study abroad experiences of faculty members on individual and institutional development The research and its outcomes presented here utilize results from a large scale survey and interviews of faculty at ten leading universities in Malaysia Indonesia Vietnam and Cambodia The analyses show that the study abroad experiences of faculty members impact not only improvements in research quality and development of educational programs but also serve as the foundation for international activities at the university crucially important in today s higher education landscape On the other hand the research reveals the rapid development of higher education at the local and regional levels including the development of graduate programs for faculty training in the home country leading to increasing rates of study abroad within Southeast Asia Through the analyses presented this book offers a new understanding of higher education development and internationalization in Southeast Asia by examining the impact of study abroad on the academic profession higher education institutions and the higher education sector Impact of Digital Transformation in Teacher Training Models Afonso, Ana,Morgado, Lina,Roque, Licínio,2022-02-11 A new reality of teaching and learning through technology is continually on the rise creating the need for governments organizations teachers students and families to adapt Students are realizing the need to become more autonomous parents are having to become more present and teachers are assuming new roles in virtual education Although this new era of education is marked by innovation at all levels most of these changes have not been thoroughly planned or structured thus creating a difficult experience for all the educational stakeholders Impact of Digital
